

DOKUMENTASI SETUP PRINTER

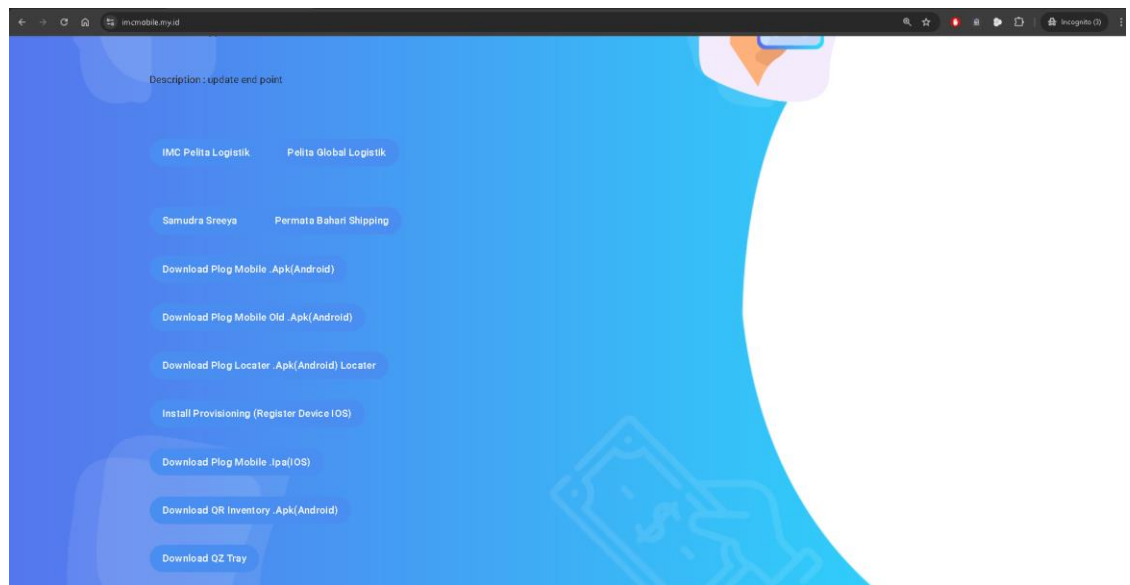

1. Driver Plugin Printer QR Inventory Application

Untuk driver printer dapat di download di link sebagai berikut :

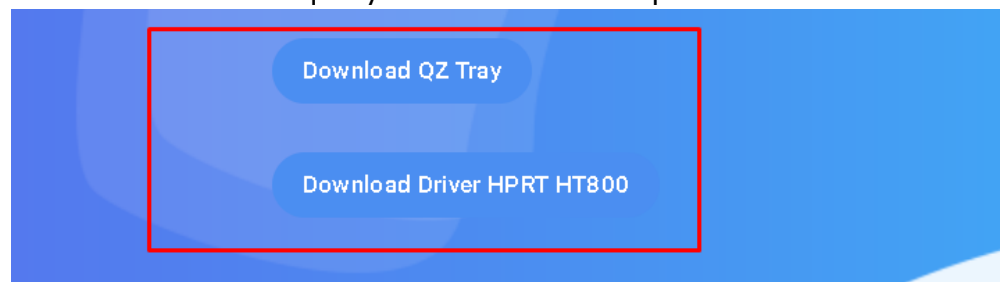

<https://imcmobile.my.id>

Berikut step nya :

- Buka browser chrome / Etc,
- Lalu tuliskan <https://imcmobile.my.id> pada url

- Untuk mendownload printer dan plugin printer dapat mengklik tombol download qztray & download driver hp rt ht800

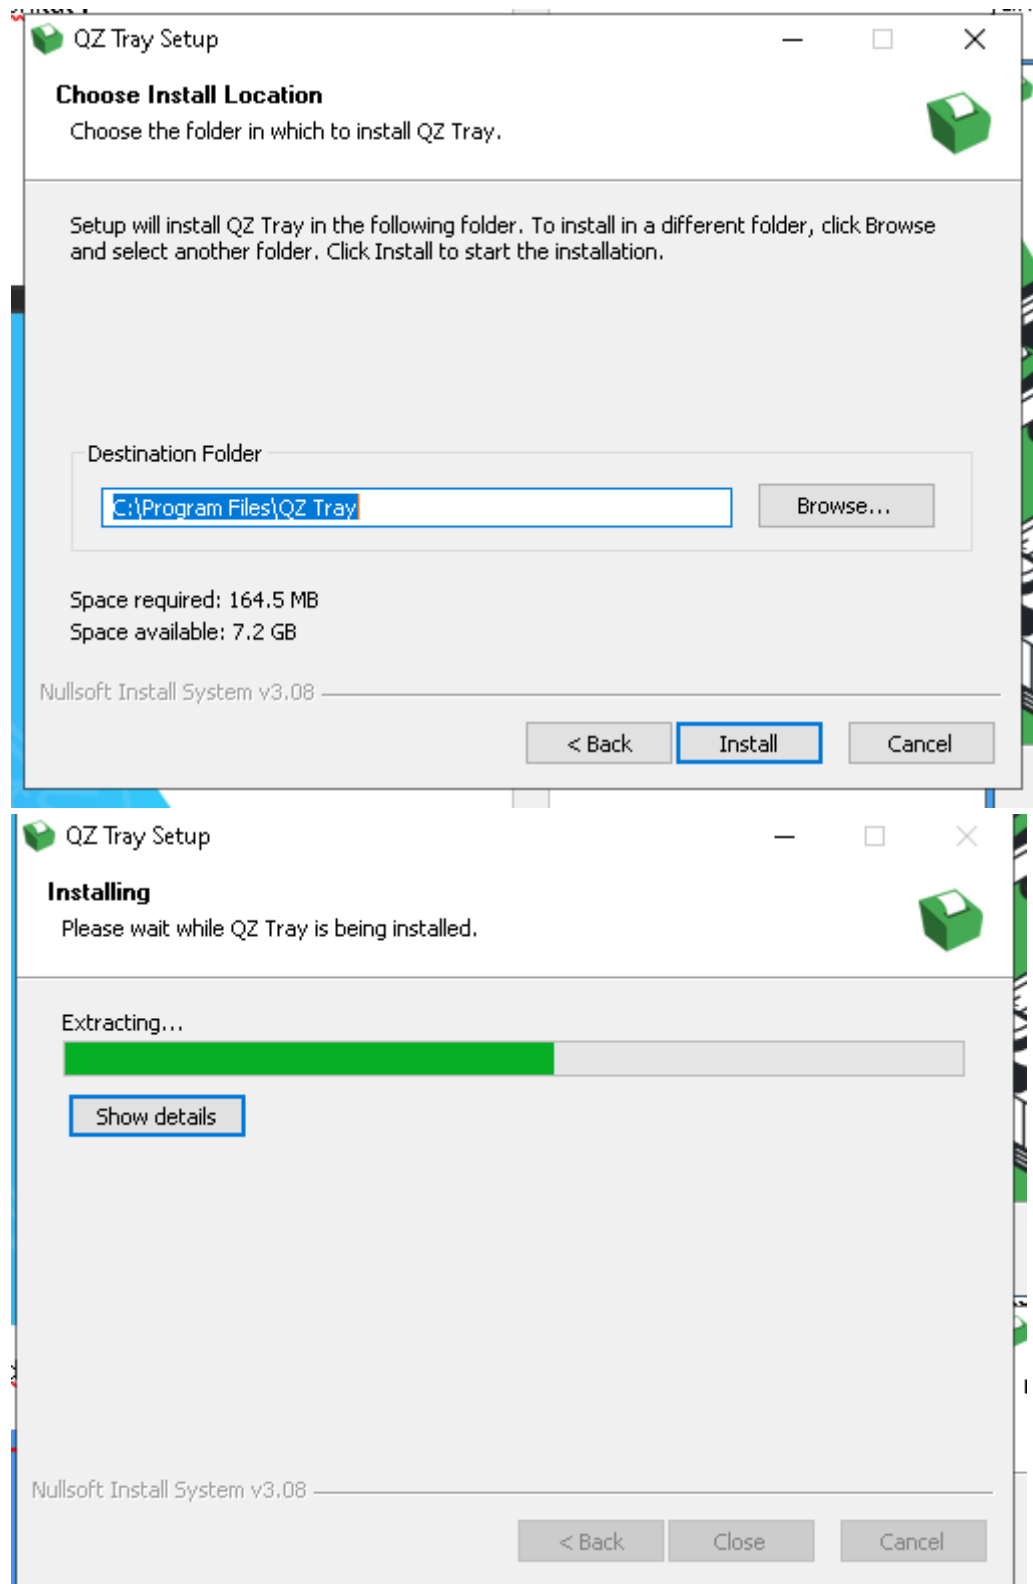

- Pertama install untuk driver qztray

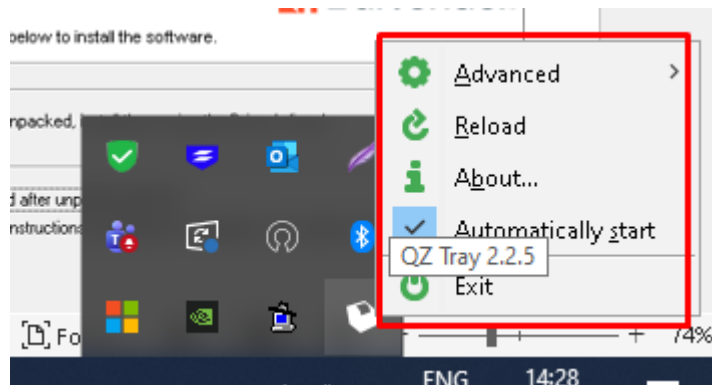

- Kemudian klik hasil downloadan tersebut. Jika setelah di klik meminta user dan password admin untuk menginstal driver , bisa kontak ke mas **dhani dan mas dwi** untuk dimasukan password dan username dari device yang akan di install.

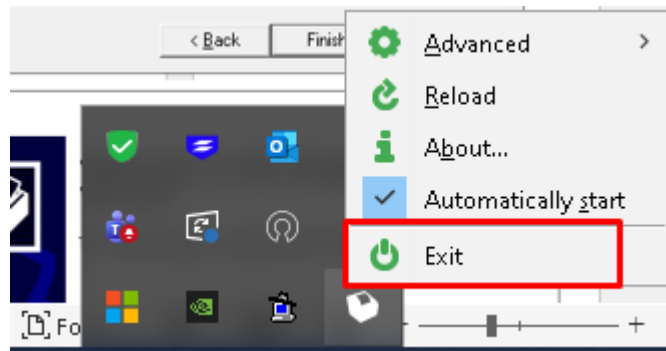

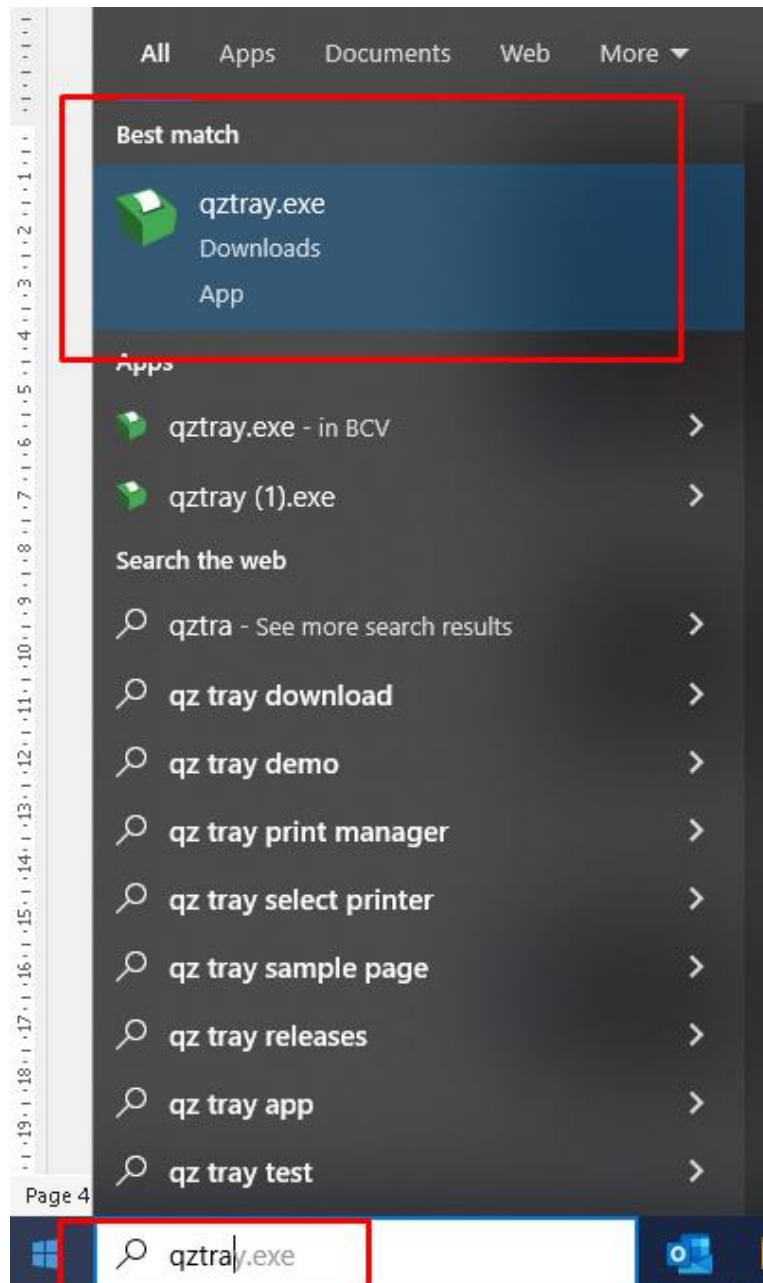

- Jika sudah maka akan ke close dengan sendirinya.
- Untuk memastikan third party driver telah jalan dapat dilakukan seperti gambar dibawah :

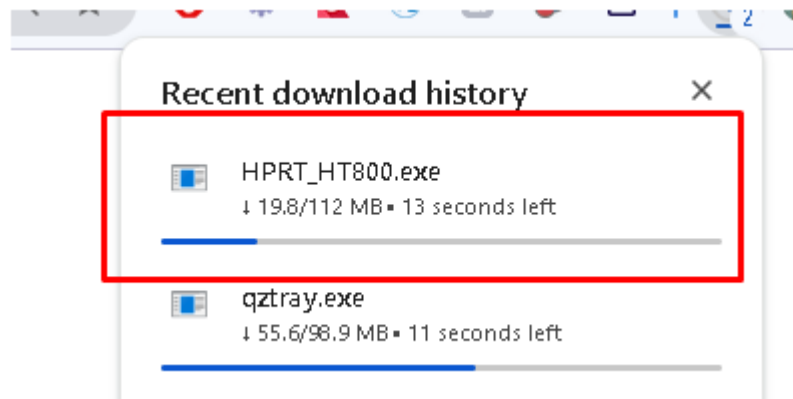

Bugs: Jika terjadi pergantian kertas ataupun pembaruan driver maka dapat di klik exit pada qztray nya

dan di jalannkan kembali :

2. Kemudian install untuk driver printer

Windows Printer Drivers

✕

Installation Directory

Select the directory where the driver should be unpacked.

The software will be unpacked to the directory listed below. To unpack to a different directory, either type in the new path or click Browse to select a different directory.

Installation Directory:

Space required on drive:	142.6 MB
Space available on selected drive:	8.0 GB

Windows Printer Drivers

✕

Installation Information

Follow the instructions below to install the software.

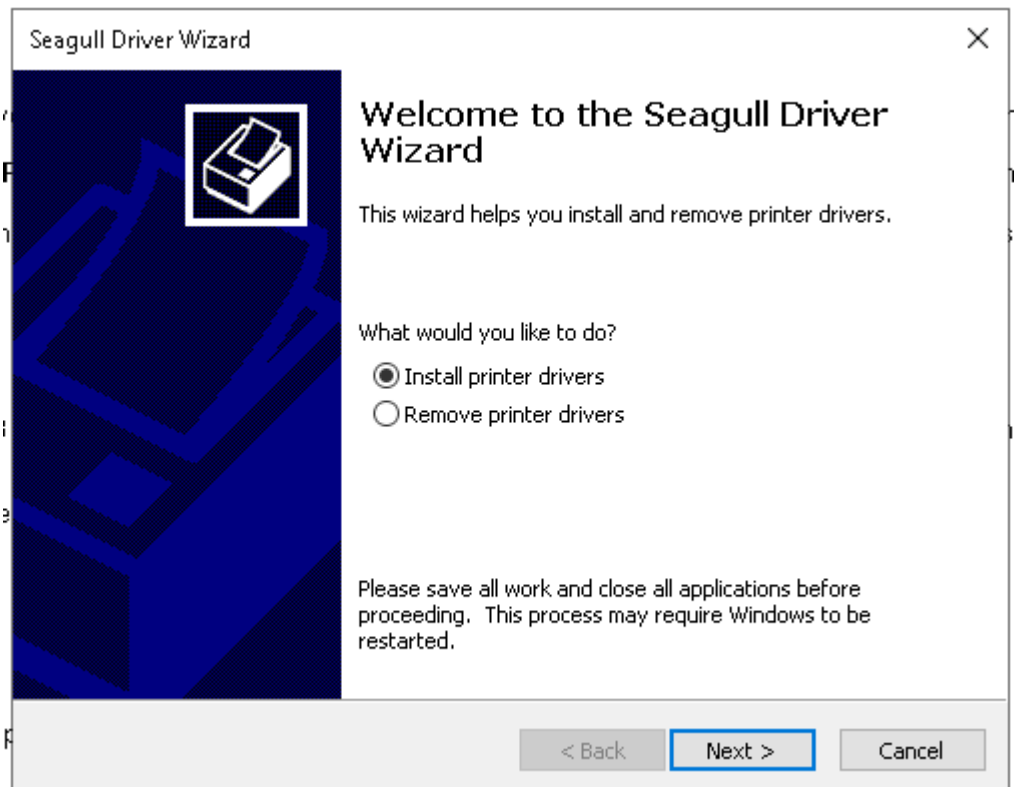

Instructions

After the drivers are unpacked, install them using the Driver Wizard.

Options

☒ Run Driver Wizard after unpacking drivers

☒ Read installation instructions (contained in 'Installation_Instructions.html')

- Pastikan printer sudah konek / di colok dengan device yang diinstall.
- Printer yang sudah menyala di indikasi kan dengan lampu yang berwarna hijau pada status light.

Jika lampu masih berwarna kuning bisa di klik pada ulang tombol power lalu printer akan berbunyi beep dan status light akan berubah berwarna hijau.

Untuk mengeluarkan kertas yang terlalu kedalam dapat mengklik tombol seperti dibawah:

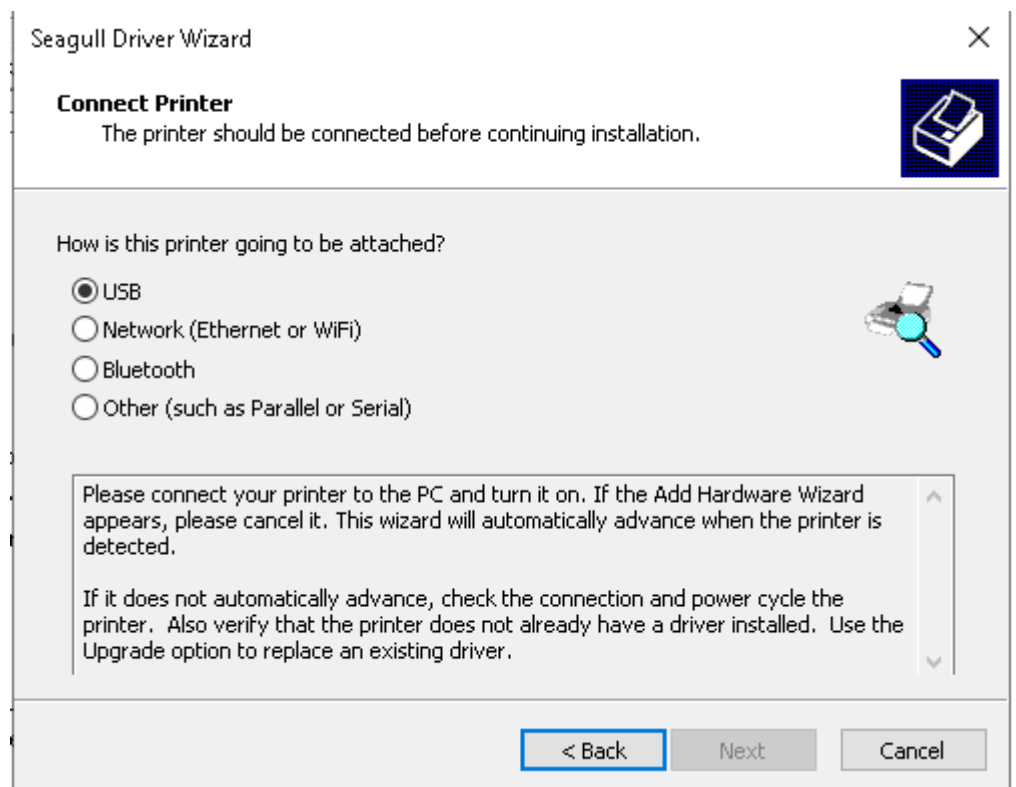

Untuk posisi pita printer pastikan seperti gambar yang dibawah :

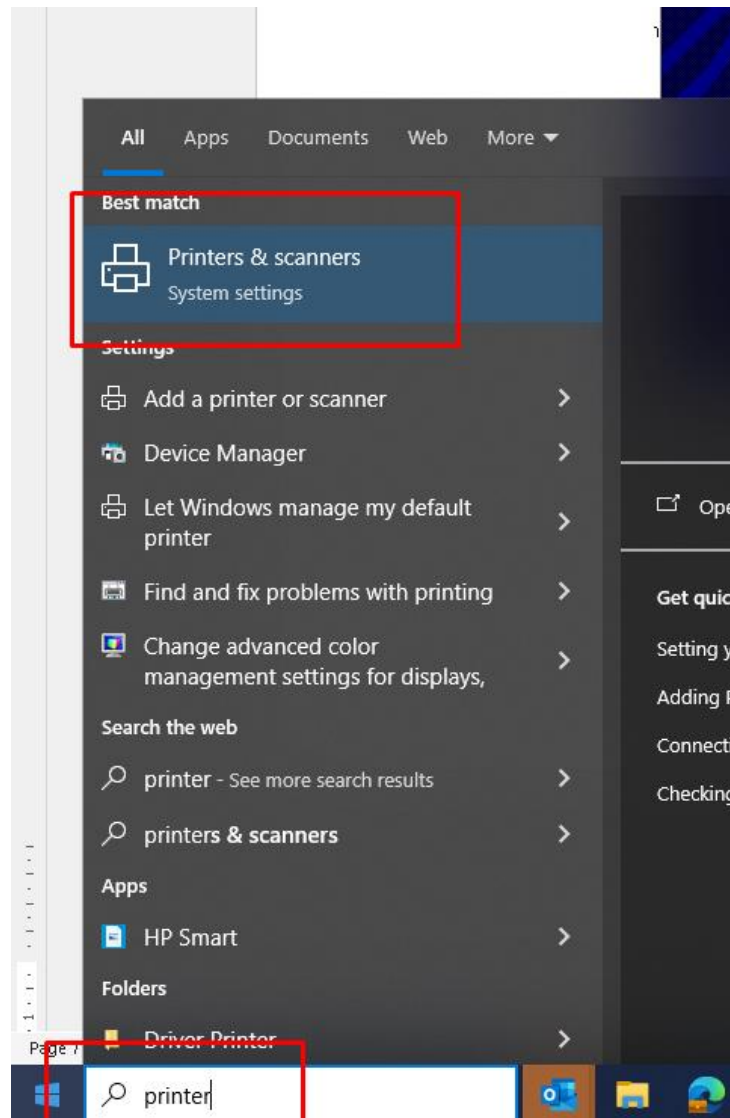

Sedangkan bagian kertas printernya ada pada poisis seperti gambar dibawha ini :

Lanjut ke bagian instalasi

- Pilih USB , lalu tekan next sampai dengan step terakhir.
- Kemudian bisa di test print dengan cara membuka start menu lalu tuliskan printer. Setelah itu pilih printer dan scanner seperti gambar dibawah :

- Setelah muncul gambar dibawah ini

Printers & scanners

Add printers & scanners

Add a printer or scanner

Changes Record

■ Statement

This manual content may be altered without permission, and our company reserves the rights to make changes without notice in technology, spare parts, hardware and software of the products. If more information is needed about the products, please contact our company. Without any written permission from our company, any section of this manual is prohibited to be copied or transferred in any form.

■ Copyright

This manual is printed in 2022, the copyright belongs to Xiamen Hanin Electronic Technology Co. Ltd.

Printed in China

1.0 Version

■ Warnings

This must be complied with in order to avoid any damage to the human body and the equipment.

This is showing the important information and tips for the printer operation.

Note: Due to continuous update of our product, the description of printer specification, accessories, design in this manual may be slightly different. Please keep in kind prevail.

Manual Information

This user manual contains basic information for product usage as well as for emergency measures that may be required.

The installation and usage of printer driver, utility tool and BarTender Ultralite are also included in the manual.

Important Safety Instructions

Before using the appliance, please carefully read the following safety regulations in order to prevent any hazard or material damage.

1. Safety warning

Warnings: The print head will become very hot during printing; avoid contact with the print head after printing has finished.

Warnings: Do not touch the printer head and connector in case static damage the printer head.

2. Instructions

Warnings: Violating following instructions can cause serious injury or death.

- 1) Do not plug several products in one multiperture outlet.
 - This can provoke over-heating and a fire.
 - If the plug is wet or dirty, dry or wipe it before usage.
 - If the plug does not fit perfectly with the outlet, do not plug in.
 - Be sure to use only standardized multiperture outlet.
- 2) You must use the supplied adapter.
 - It is dangerous to use other adapters.
- 3) Do not pull the cable to unplug.
 - This can damage the cable, which is the origin of a fire or a breakdown of the printer.
- 4) Do not plug in or unplug with your wet hands.
 - You can be electrocuted.
- 5) Do not bend the cable by force or leave it under any heavy object.
 - A damaged cable can cause a fire.

Note: Violating following instructions may cause slight damage of the appliance.

- 1) If you observe a strange smoke, odour or noise from the printer, unplug it before taking following measures.
 - Switch off the printer and unplug the set from the mains.
 - After the disappearance of the smoke, call your dealer to repair it.
- 2) Install the printer on the stable surface.
 - If the printer falls, it can be broken and you can hurt yourself.
- 3) Use the approved accessories only and do not try to disassemble, repair or remodel it by yourself.
 - Call your dealer when you need these services.
 - Do not touch the blade of auto cutter.
- 4) Do not let water or other foreign objects drop into the printer.
 - If this happened, switch off and unplug the printer before calling your dealer.
- 5) Do not use the printer when it is out of order. This can cause a fire or an electrocution.
 - Switch off and unplug the printer before calling your dealer.
- 6) Other considerations:
 - Place the printer on a solid and even base so that it cannot fall.
 - Leave enough space around printer for operation and maintenance.
 - Keep all liquids away from the printer.
 - Do not expose the printer to high temperatures, direct sunlight or dust.
 - Ensure the printer is connected to a socket with the correct mains voltage.
 - Switch off the printer POWER supply when it's not in use for a long time.
 - To ensure the printing quality and reliability, suggest use the same quality or recommend paper supplier.
 - Please switch off the POWER supply when connect/disconnect all the ports or it will cause damage to the printer control circuit.
 - Never carry out maintenance or repair work yourself. Always contact a qualified service Technician.
 - Keep this User Manual in a place which is always easily accessible.

3. Other Precautions

The copyright for this user manual and various other manuals is property of our company. Any copying or conversion into electronic form and saving of this material without the express written permission is strictly prohibited. Use of the information contained in this manual is not subject to any patent liability. This manual has been prepared with utmost care and attention to detail but may contain certain errors and/or omissions. Our company is not legally liable for any damages resulting from the use of the information in this manual. Our company and its affiliates are not legally liable (United States excluded) for any damages, loss, costs, and/or expenses that result from the breakdown, malfunction, and/or misuse of the product due to violation or neglect of the operation and maintenance information and instructions provided by our company, as well as from the unauthorized alteration, repair, and/or modification of the product by the user and/or third party. We are not legally liable for any damages and/or issues resulting from the use of options and/or parts that are not authentic or authorized products.

4. WEEE (Waste Electrical and Electric Equipment)

This mark shown on the product or its literature indicates that the corresponding item should not be discarded at the end of its working life with other household waste. To prevent possible harm to the environment or human health from uncontrolled waste disposal, please separate marked items from other types of waste and recycle them responsibly to promote the sustained reuse of material resources. Household users should contact either the retailer where they purchased this product, or their local government office for details of where and how they can conduct environmentally safe recycling of such items. Commercial users should contact their suppliers and check the terms and conditions of purchase contracts. This product should not be combined with other commercial waste for disposal.

Caution: This is a Class A product. In a domestic environment this product may cause radio interference in which the user may be required to take adequate measures.

Chapter 1 Introduction

1.1 Packing List

Note:

1. Unpack the printer and keep the packing material in case you need to ship the printer in the future.
2. Any damages exist, please contact the local dealer.

Options & Accessory		Peeler Module, Cutter Module, Hob Module
Printing RFID label		Support
Agency Approval		CE,FCC,CB

Chapter 3 Installation & Usage

3.1 Media Loading

3.1.1 Loading the Roll

1. Press to open the printer cover and mechanism.

2. Pull the roll holders open and place the roll between them. And press down the locking tab.

3.Pass the labels through label guides and adjust label guides to adapt to the label width.

Note: If your printer is under Thermal Line Printing Method, press down the printer cover until it snaps closed. Otherwise, continue the procedure in chapter 3.1.2.

3.1.2 Loading the Ribbon

1. Install the ribbon module.

2. Insert the left part of supply spindle and then the right part.

3. Press down the printer mechanism.

4. Insert the left part of rewind spindle and then the right part.

5. Wind the core 2~3 circles until the ribbon is pulled tightly.

6. Fix the mechanism and close the cover.

3.2 Power Connection

1. Connect the AC adapter to power receptacle.
2. Connect the power cord to AC adapter.
3. Connect the other end of power cord to the outlet.

Caution:

- Use the original power adapter only. Avoid the damage caused by charging improperly.
- Please unplug the printer power cord if it is not in use for a long time.

3.3 Peripherals Connection

3.3.1 Interface Cable Connection

1. The standard for the printer's interface cable shows as follows:

- USB A-Type cable
- USB B-Type cable
- RS-232C cable
- RJ45 cable

2. Based on your own need, follow the instructions to connect the cable.

- 1) Make sure the printer's power is off.
- 2) Please plug in the cables.
 - Insert the USB A-Type cable into the USB(type A) interface.
 - Insert the USB B-Type cable into the USB(type B) interface.
 - Insert the RS-232C cable into the serial interface.
 - Insert the RJ45 cable into the ethernet interface.

3.3.2 Bluetooth Connection

PDA with Bluetooth interface, laptop and other information terminals can drive the printer. Instructions show as follows:

1. Power on the printer.
2. Primary device searches for outer Bluetooth devices.
3. If there are other Bluetooth devices, select the printer's name.
4. Finish pairing.

If you need more detailed information of pairing methods, please refer to the instructions of Bluetooth device.

After pairing, primary devices with virtual Bluetooth interface (smart phone, tablet, pocket PC, palm, notebook) can drive the printer to print labels through virtual Bluetooth interface.

Note: The original code is 1234.

3.4 Detection

When printing paper, the moveable label sensor is used to detect paper. The label sensor moves differently when using various kinds of paper. If user moves the sensor improperly, paper may not be detected, therefore the printer could not print paper. The following instructions tell users how to use label sensor correctly. Please read it carefully.

3.4.1 Continuous Paper

When printing continuous paper (Figure 1), the sensor shall be aimed at the left triangle below (Figure 2), which is the original position.

Figure 1 (Continuous Paper)

Figure 2 (Left)

3.4.2 Labels

When printing labels (Figure 3) or double-row labels (Figure 4), the sensor shall be aimed at the left triangle below (Figure 5), which is the original position.

Figure 3 (Labels)

Figure 4 (Double-row Labels)

Figure 5 (Left)

3.4.3 Punched Hole Label

When printing punched hole labels, move the sensor until it's aimed at the right triangle below (Figure 6).

Figure 6 (Right)

3.4.4 Blackmark Paper

When printing blackmark paper (Figure 7), the sensor shall be aimed at the position of black mark (Figure 8).

Figure 7 (Blackmark Paper)

Figure 8 (aimed at blackmark's position)

3.5 Operation Panel

3.5.1 Panel Introduction

The panel indicates the printer's operating status and allows the user to control basic printer operation.

1.Power Button

Much more detailed information is provided in "3.6.1 Power On/ Power Off".

2.Feed Button

Much more detailed information is provided in "3.6.2 FEED Button".

3.Pause Button

4.Cancel Button

3.5.2 Indicator Status

1.Power light

Color	Action	Indicating Status
x	x	The printer is off
Green	On	Normal operation
Green	Slow flash	Dump mode

2.Status light

Color	Action	Indicating Status
x	x	The printer is off/standby/printing
Red	On	Head up/paper out
Red	Quick flash	Paper jam/label's separation
Orange	On	Ribbon out
Orange	Slow flash	Printing pause
Green	On	Label calibration
Green	Slow flash	Wait on demand
Green	Quick flash	Receiving data

3.Paper Container light

Action	Indicating Status
On	Paper out/Paper jam/label's separation
Off	Head up/error elimination

Note:

Quick flash → 0.2 second / every cycle

Slow flash → 1 second / every cycle

3.6 Basic Function

3.6.1 Power On/ Power Off

- When the printer is off, press the power button once, and printer will power on.
- When the printer is on, press the power button for three seconds. After ringing twice, the printer will power off.

3.6.2 FEED Button

- When the printer is ready, press the feed button, and printer will automatically feed a label under “Label Mode”. Press the feed button, and the printer will feed the fixed distance under “Continuous Mode”.
- When the printer is printing, press the feed button once and it will stop the printing job. Press the feed button for three seconds and it will cancel the printing job.
- When the printer pauses, press the feed button once and it will continue the printing job. Press the feed button for three seconds and it will cancel the printing job.
- When the printer is in dump mode, press the feed button once, then back to the normal printing mode.
- When the indicator status flashes slowly(green), press the feed button once and printer will print a label.

3.6.3 Quick Calibration

Users must carry out the calibration under the conditions below:

- The first time to use the printer since installation;
- The first time to use the printer since sensor cleaning;
- Reuse the printer when it has not been used for a long time;
- Change a new type of media;
- Printer cannot recognize the mark;
- Huge change of the operating environment;

Calibration method:

- Carry out the calibration manually.

When printer is ready, press the FEED button for 3 seconds until the status indicator(Green) flashes twice. Then release the button, and printer will start to do the calibration. When printer does the calibration under Continuous Media Mode, the calibration is invalid.

- Carry out the calibration by printer utility tool.

Please refer to detailed information in “Chapter 6 Printer Utility Tool Instructions”.

Note: After the quick calibration, users could open the printer cover to pull back the learned paper in avoid of paper wasting.

3.6.4 Print Self-test Page

The self-test checks the printer's current settings, status and whether the printer has any problems or not.

1.Printing Manually

- 1) Make sure the roll is loaded properly.
- 2) Make sure the top cover of the printer is closed properly. Then turn on the printer.
- 3) When the printer is ready, press the feed button continuously. As soon as the indicator flashes (green) once, loosen the button. Then the printer starts to print the self-test page.

2.Printing by Windows Driver Program

- 1) Install the Windows Driver program.
- 2) Set the "Interface" as the type you use.
- 3) Use the Windows Driver Program to print out the "Self-test page".
- 4) Please refer to "Chapter 7 Seagull Windows Driver Instructions" for more detailed information.

3.Printing by BarTender Ultralite Program

- 1) Install the BarTender Ultralite program.
- 2) Edit a new label and print it.
- 3) Please refer to "Chapter 8 BarTender Ultralite Instructions" for more detailed information.

Chapter 4 Interface

4.1 USB Interface

1.USB (Type B)

Chapter 5 Maintenance & Adjustment

Adhesives and coatings of the media can transfer to the printer parts over time along the media path including the thermal print head and media sensor. This build-up can accumulate dust and debris. Failure to clean the print head, media path, and media sensor could result in inadvertent loss of labels, label jams and possible damage to the printer.

**Note:**

- Make sure to turn off the printer prior to cleaning.
- As the print head gets hot during printing, if intending to clean the print head, turn the printer off and wait approximately 2~3 minute before commencement.
- When cleaning the print head, take care not to touch the heated portion of the print head. Print Head is susceptible to damage from static electricity, etc. So it is strongly recommended to wear hand gloves during cleaning progress.
- Take care not to allow the print head become scratched and/or damaged in any way.

5.1 Cleaning Media Sensor

Debris or dirt on the paper sensor can cause a miss-read or unstable detection of the label gap. Clean with a cotton bud dampened with alcohol.

5.2 Cleaning Thermal Print Head

Thermal Paper stock on the print head, which degrades print quality. Clean the print head with methanol or isopropyl alcohol and a cotton bud. Do not touch the heating elements with your fingers.

- 1) Open the Printer Cover and then use the cleaning pen to clean the head in the direction from the center of the head to two sides.
- 2) After cleaning the head, do not use the printer until the alcohol used for cleaning evaporates completely (1~2 min) and the printer has completely dried.
- 3) Perform the cleaning process each time the paper roll is replaced to prevent print quality deterioration.

5.3 Cleaning Roller and/or Paper Path

- 1) Open the printer cover and then remove the paper.
- 2) Remove any dust or foreign substance using dry cloth or cotton swab.
- 3) Soak the cloth or cotton swab in alcohol for medical use and use it to remove adhesive foreign substances or other pollution materials.
- 4) After cleaning the parts, do not use the printer until the alcohol evaporates completely (1~2 min) and the printer has completely dried

Note: Clean the parts when print's quality or label detection degrades.

Chapter 6 Printer Utility Tool Instructions

6.1 Installation Preparation

Download application program in CD. eg: HPRTPrinterUtility.exe

6.2 Usage

Note: The screen may vary slightly by different operating systems and models. Take printer HT800 as example.

1. Install "HPRTPrinterUtility.exe", then open it.

The interface includes a top menu bar with icons for Settings, Fonts, Storage, Function Test, Command Test, Firmware, and System. Below the menu bar, there are tabs for Common, Common, ZPL, DPL, RS-232, Bluetooth, Ethernet, and WIFI. The WIFI tab is currently selected, displaying configuration fields for SSID, Password, Work Mode, DHCP, IP Address, Subnet Mask, Default Gateway, and Mac address. The SSID is set to 'HT800', the Password is '12345678', Work Mode is 'AP', and DHCP is 'ON'. The IP Address is '172.168.1.1', Subnet Mask is '255.255.255.0', and Default Gateway is '172.168.1.1'. The Mac address is '00:00:00:00:00:00'. On the left side, there is a 'Printer Information' section with fields for Version (V20.00.6), Serial Number (XXXXXX), Cutting Counter (0), and Mileage (34.33 m). There is also a 'Printer Status' section with a 'Get Status' button. At the bottom, there are buttons for 'Set', 'Get', 'Load', 'Save', and 'RTC Setting'.

3. Click "Storage" to print image.

The screenshot shows the HPRT software interface. At the top, there is a 'Download File' section with a 'File Type' dropdown set to 'Graphics', a 'Magnification' dropdown set to '1.0', a 'File Name' input field, and a 'Download' button. Below this, the free and used space are displayed: 'Free space: 119,401,472B; Uses space 286,790,656B.' The main area is divided into three panels: 'Graphics', 'Label Form', and 'Auto Label Form'. Each panel contains a large empty box for displaying the image and a set of buttons: 'List All', 'Print Selected', 'Delete Selected', and 'Delete All' (or 'Enable Auto Form' for the Auto Label Form panel).

(1) Click "File name" to select the image.

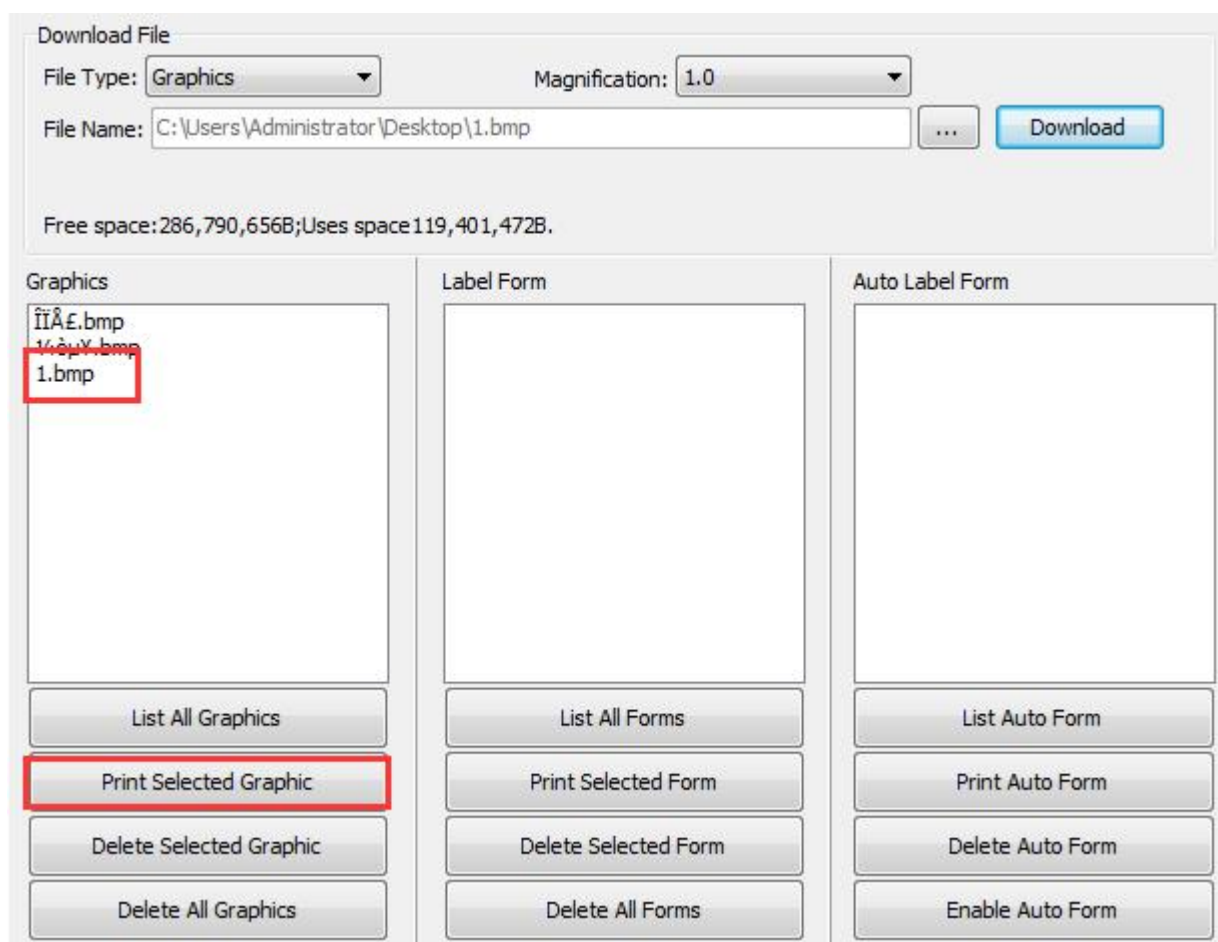

This screenshot is a close-up of the 'Download File' section. A red rectangular box highlights the ellipsis button ('...') located to the right of the 'File Name' input field, indicating where the user should click to select a file.

Note: The file name must be in English or number, and the filename length must be less than 32.

(2) Click “Download”.

(3) Select the downloaded graphic, and then click “print selected graphic” to print the picture.

(4) You can set a magnification of the graphic as needed.

5. Click "Function Test". User can carry the followings such as sensor calibration, pattern print testing and so on.

6. Click "System". Click "language" and choose the language of printer utility.

Chapter 7 Windows Driver Instructions

7.1 Introduction

The following operating systems are supported:

- Windows Vista, Windows 7, Windows 8 and 8.1, and Windows 10.
- Windows Server 2008, 2008 R2, 2012, 2012 R2, and 2016.
- 32-bit and 64-bit (x64) editions.

7.2 Installation Preparation

Download Windows Driver application program in CD.

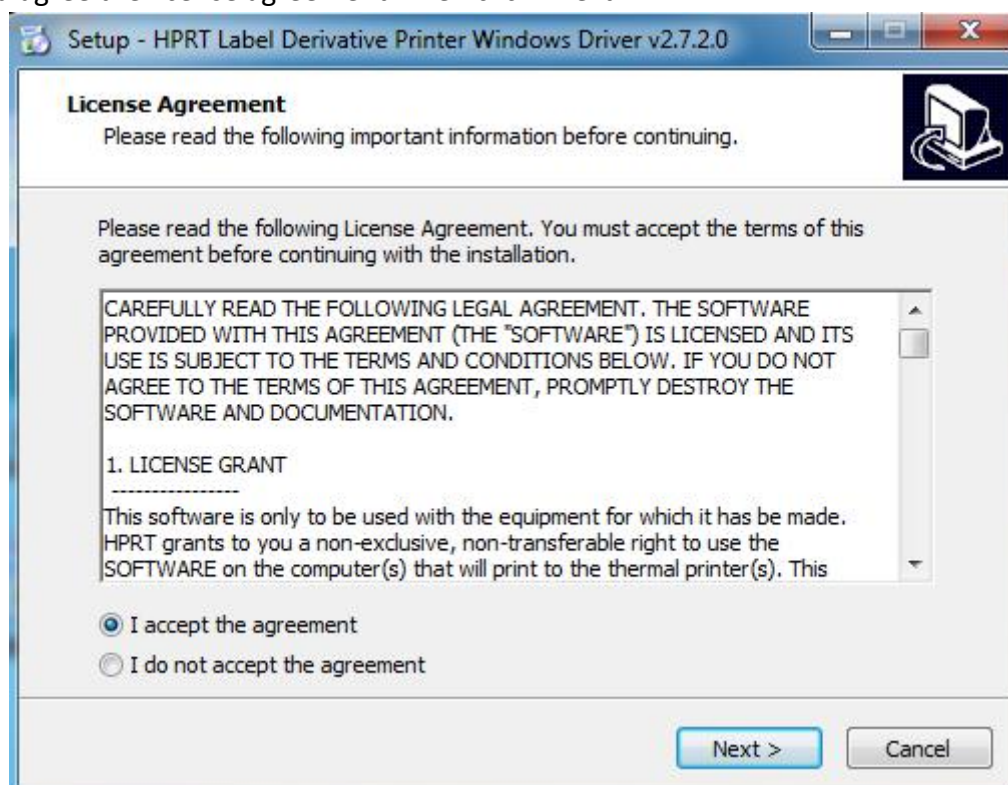

7.3 Installation

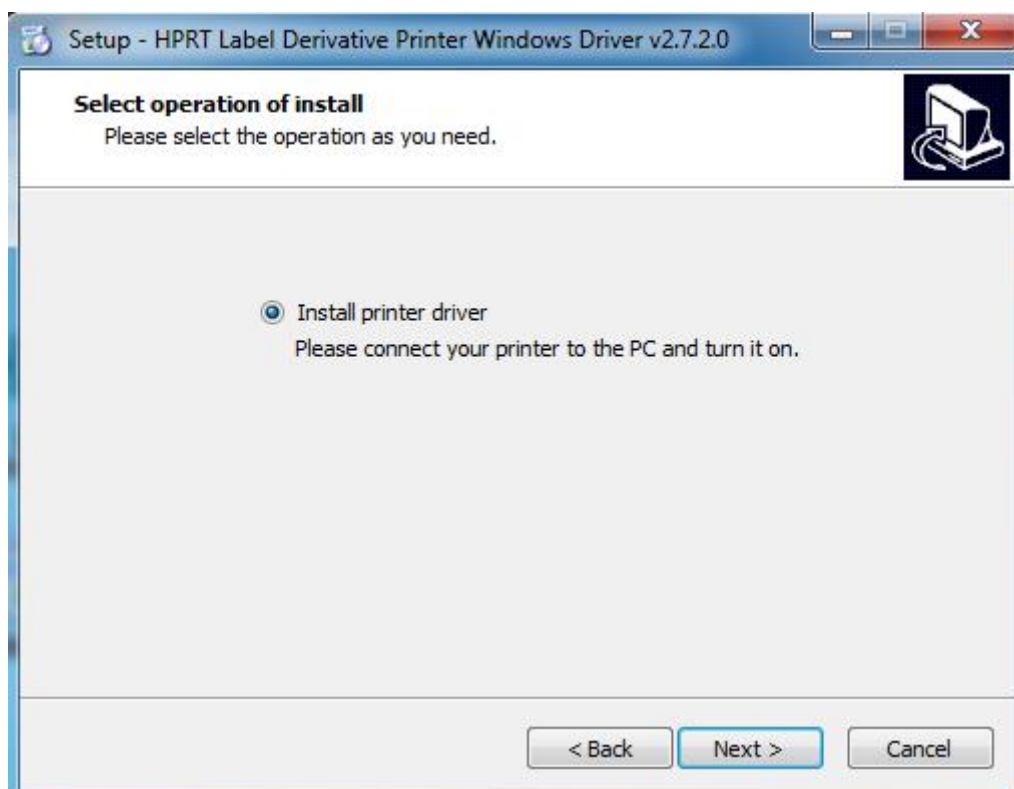

Note:

- Under different operating systems, the screen may be slightly different. Take Windows 7 as example.
- To avoid the prevention, recommend to close the security software before installation.

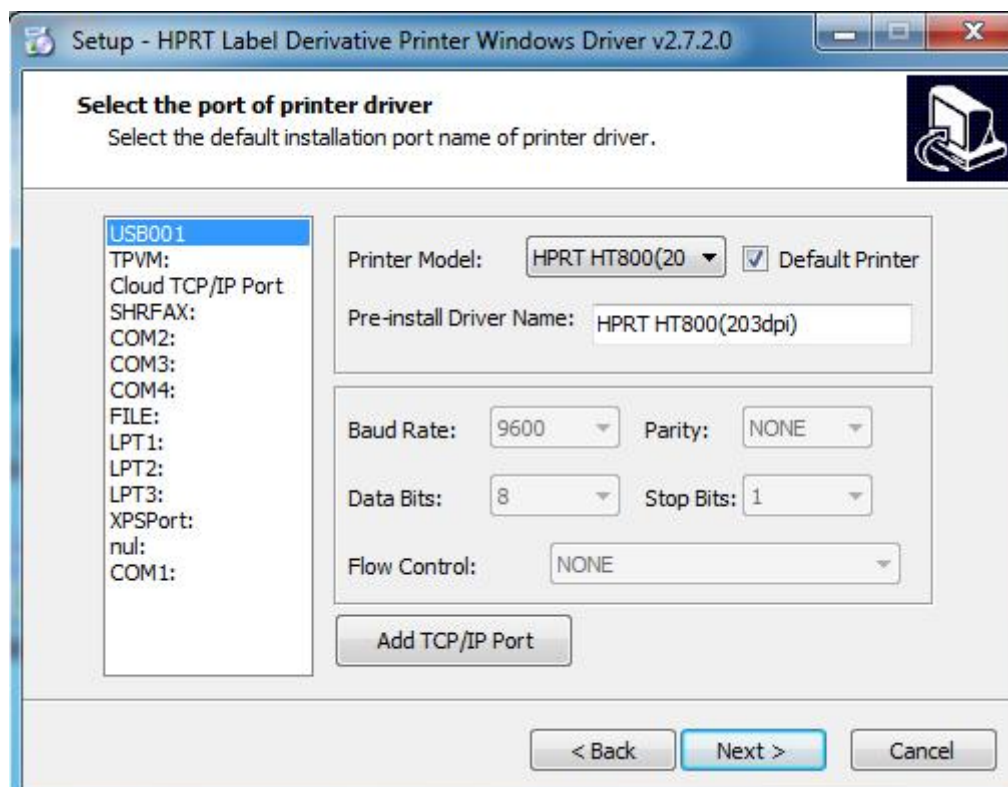

1. Select one interface to connect your printer to computer.
2. Turn on the printer and check if it is connected to computer successfully.
3. Double click Windows Driver.
4. Read and agree the license agreement. Then click "Next".

5. Choose “Install printer driver”, then click “Next”.

6. Select the port of printer driver, then click “Next”.

7. Click "Finish".

Note: If you have connected the printer to computer, it will detect and install the driver automatically.(eg.: USB port)

8. After installation, the icon will be found in "Start" → "Devices and Printers".

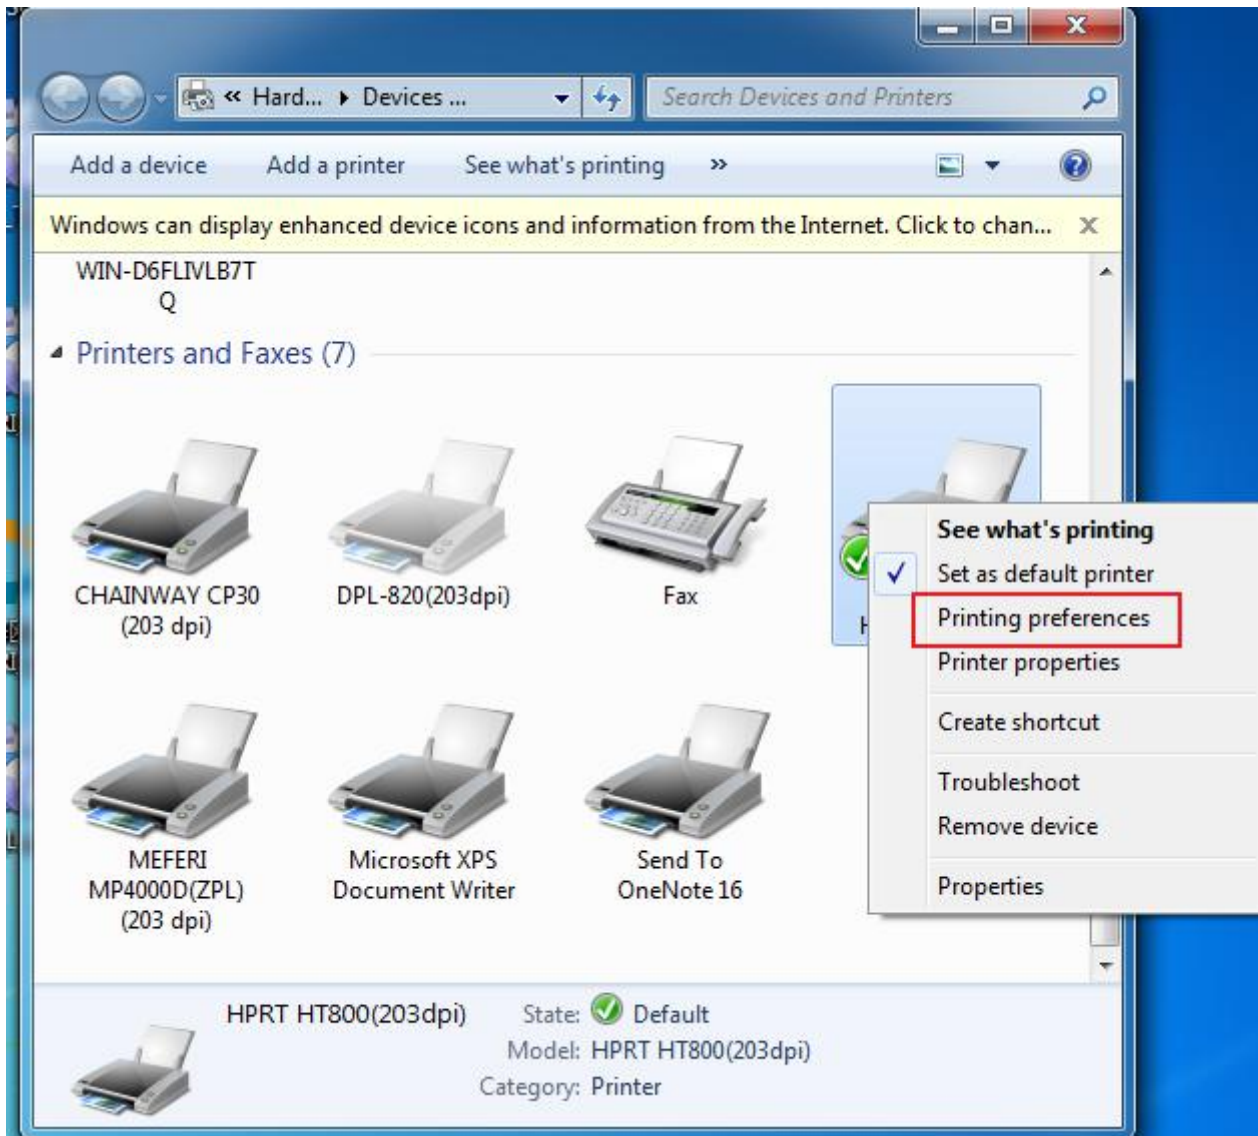

Note:

- If you have already installed the driver (No matter what kind of ports), it will generate a USB port automatically when connecting the printer to computer.
- Any problems exist, please use our utility tool in CD.

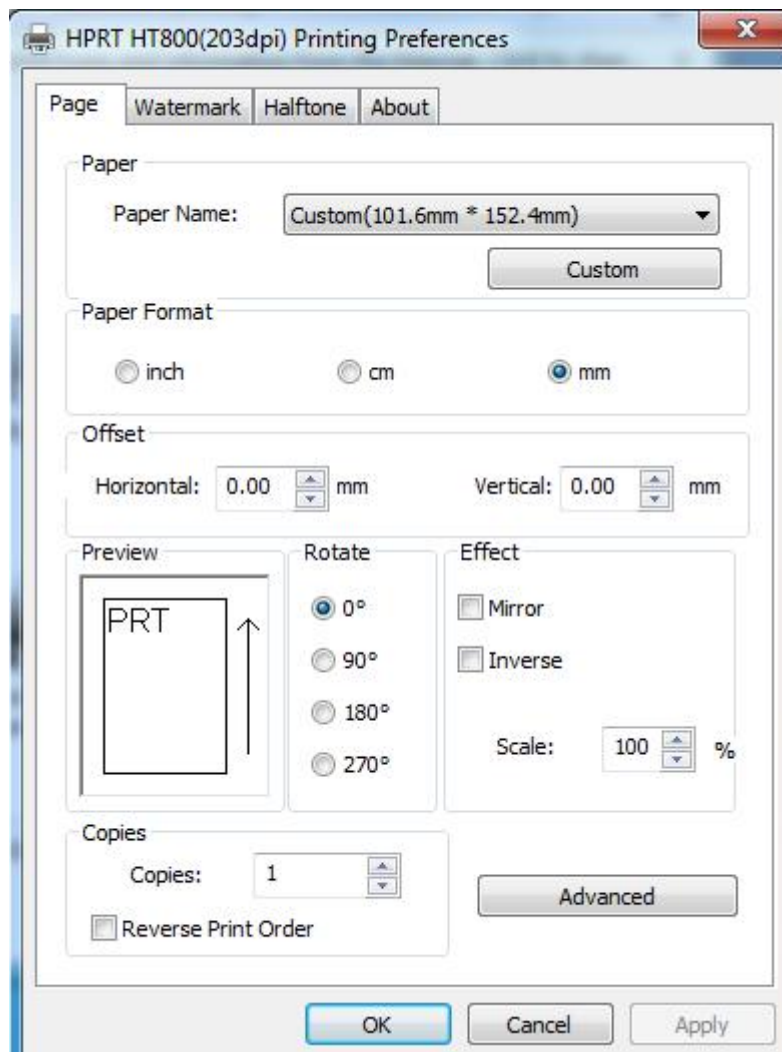

7.4 Usage

7.4.1 Printing Preferences

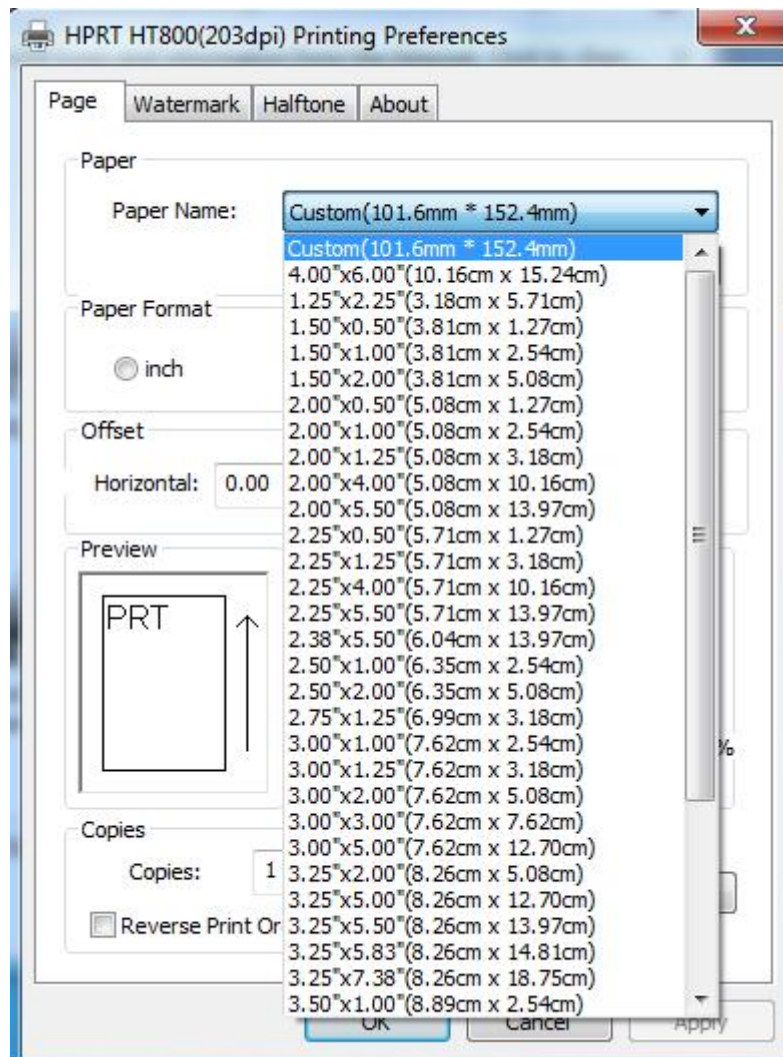

1. Click "Start" → "Devices and Printers". Right click the icon and choose "Printing preferences".

2. According to different needs, set up the page.

- Click “Paper”→“Name”, and choose the paper type.

- Click “Custom”-->“New ”, and set up a new stock.

The screenshot shows the 'Custom Paper Manager' dialog box. It is divided into two main sections: 'Custom Paper List' and 'Custom Paper Options'.

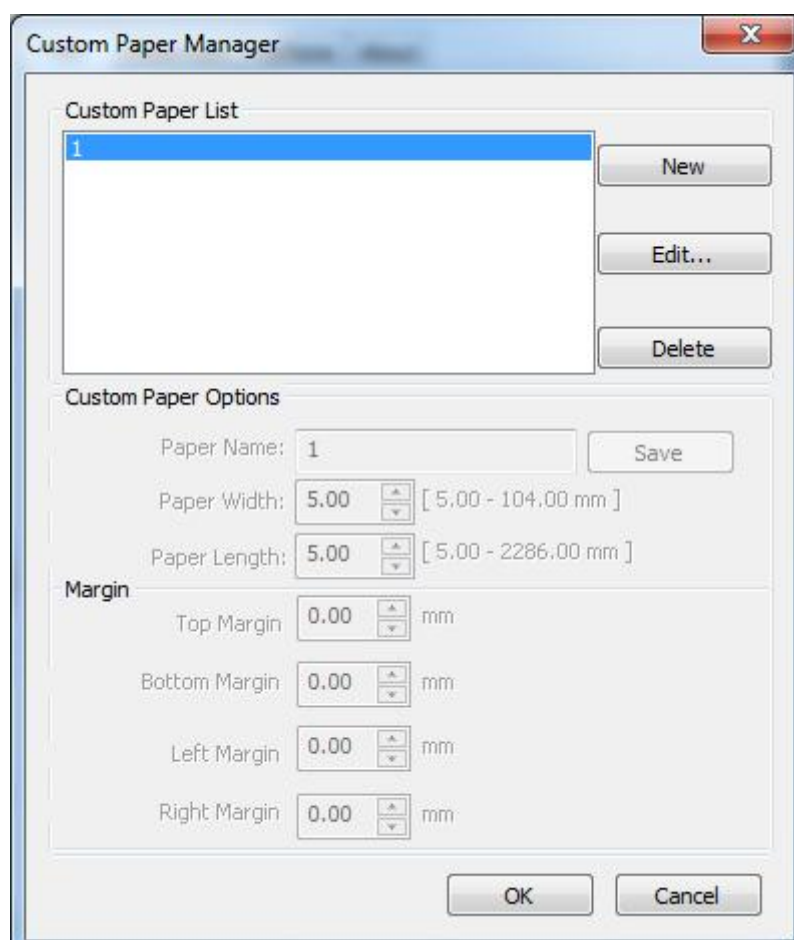

Custom Paper List: This section contains a large empty list box. To the right of the list box are three buttons: 'New' (highlighted in blue), 'Edit...', and 'Delete'.

Custom Paper Options: This section contains several input fields and a 'Save' button.

- Paper Name:** A text input field followed by a 'Save' button.
- Paper Width:** A numeric input field showing '5.00' with up/down arrows, followed by a range indicator '[5.00 - 104.00 mm]'.
- Paper Length:** A numeric input field showing '5.00' with up/down arrows, followed by a range indicator '[5.00 - 2286.00 mm]'.
- Margin:** A section containing four margin settings:
 - Top Margin:** 0.00 mm
 - Bottom Margin:** 0.00 mm
 - Left Margin:** 0.00 mm
 - Right Margin:** 0.00 mm

At the bottom of the dialog are 'OK' and 'Cancel' buttons.

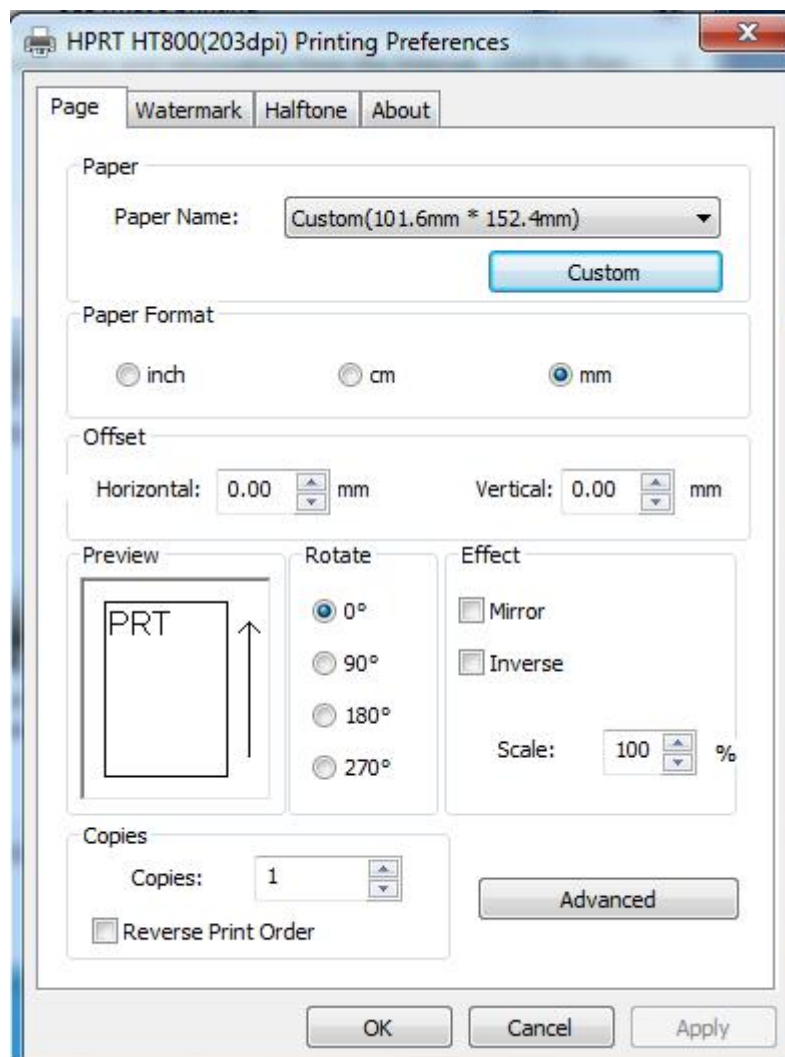

- Click “Edit”, and edit the stock.

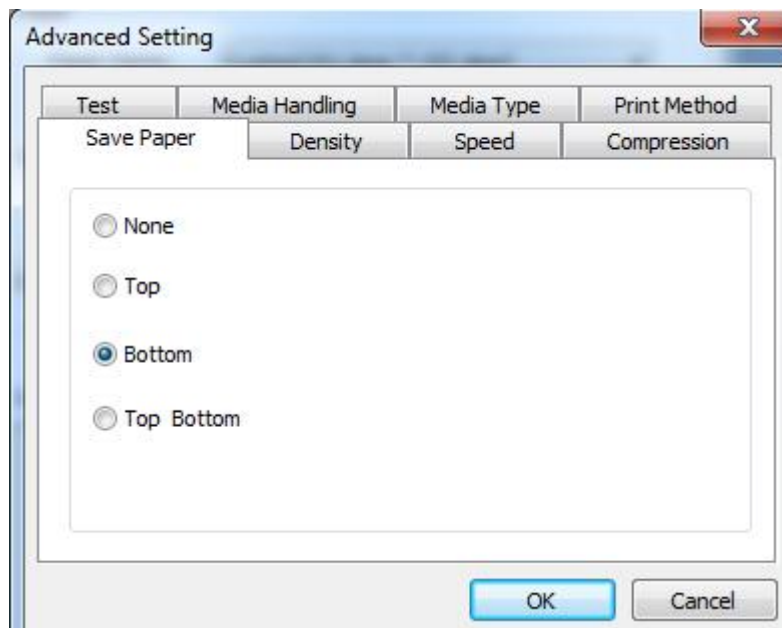

- Click “Delete”, and delete the stock.

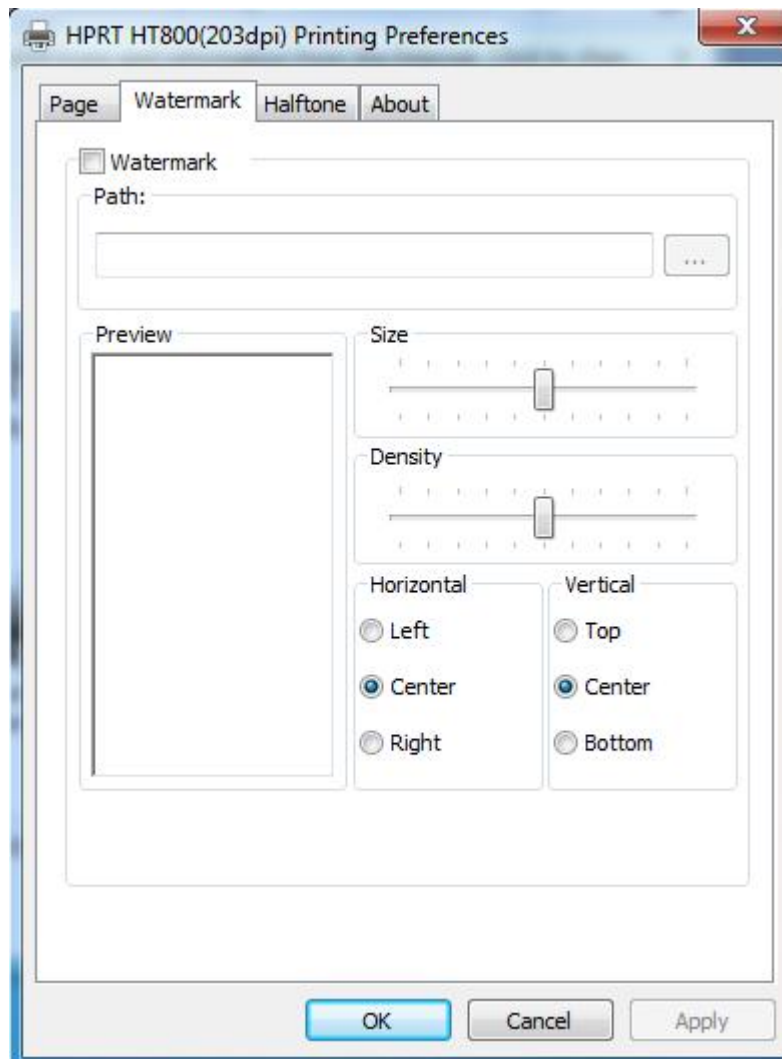

- Choose “Rotate” or “Effects”, showed in the “Preview”.

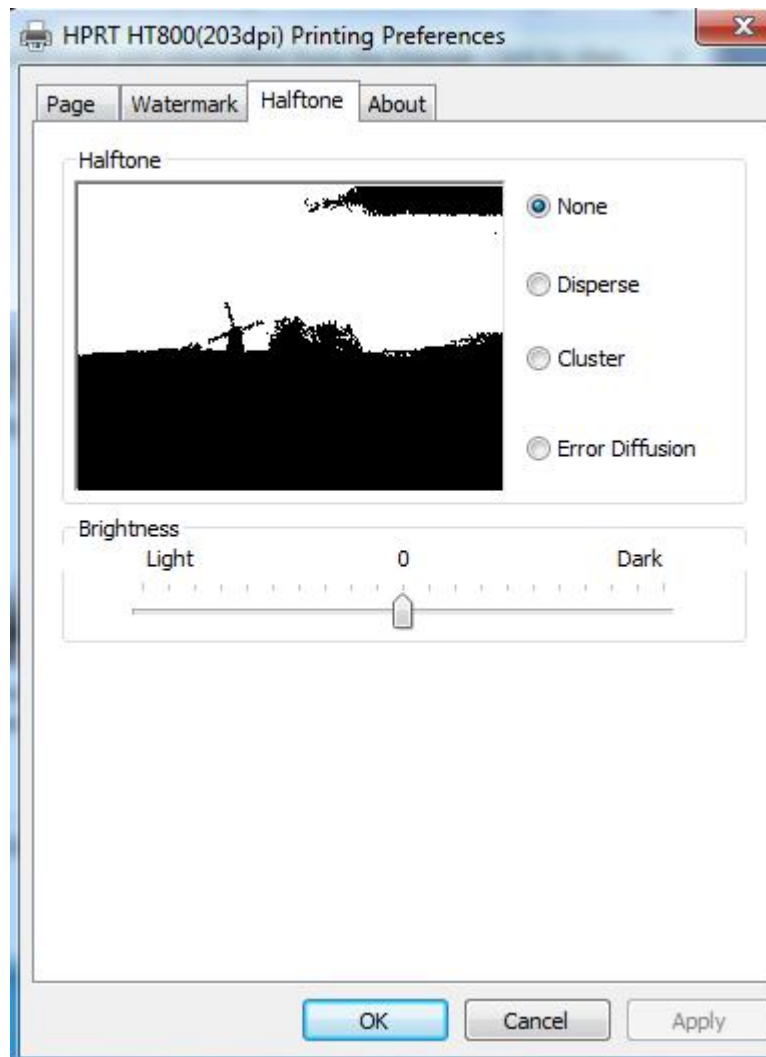

- Click “Advanced”, and change the settings.

3. Click "Watermark", and edit the pictures.

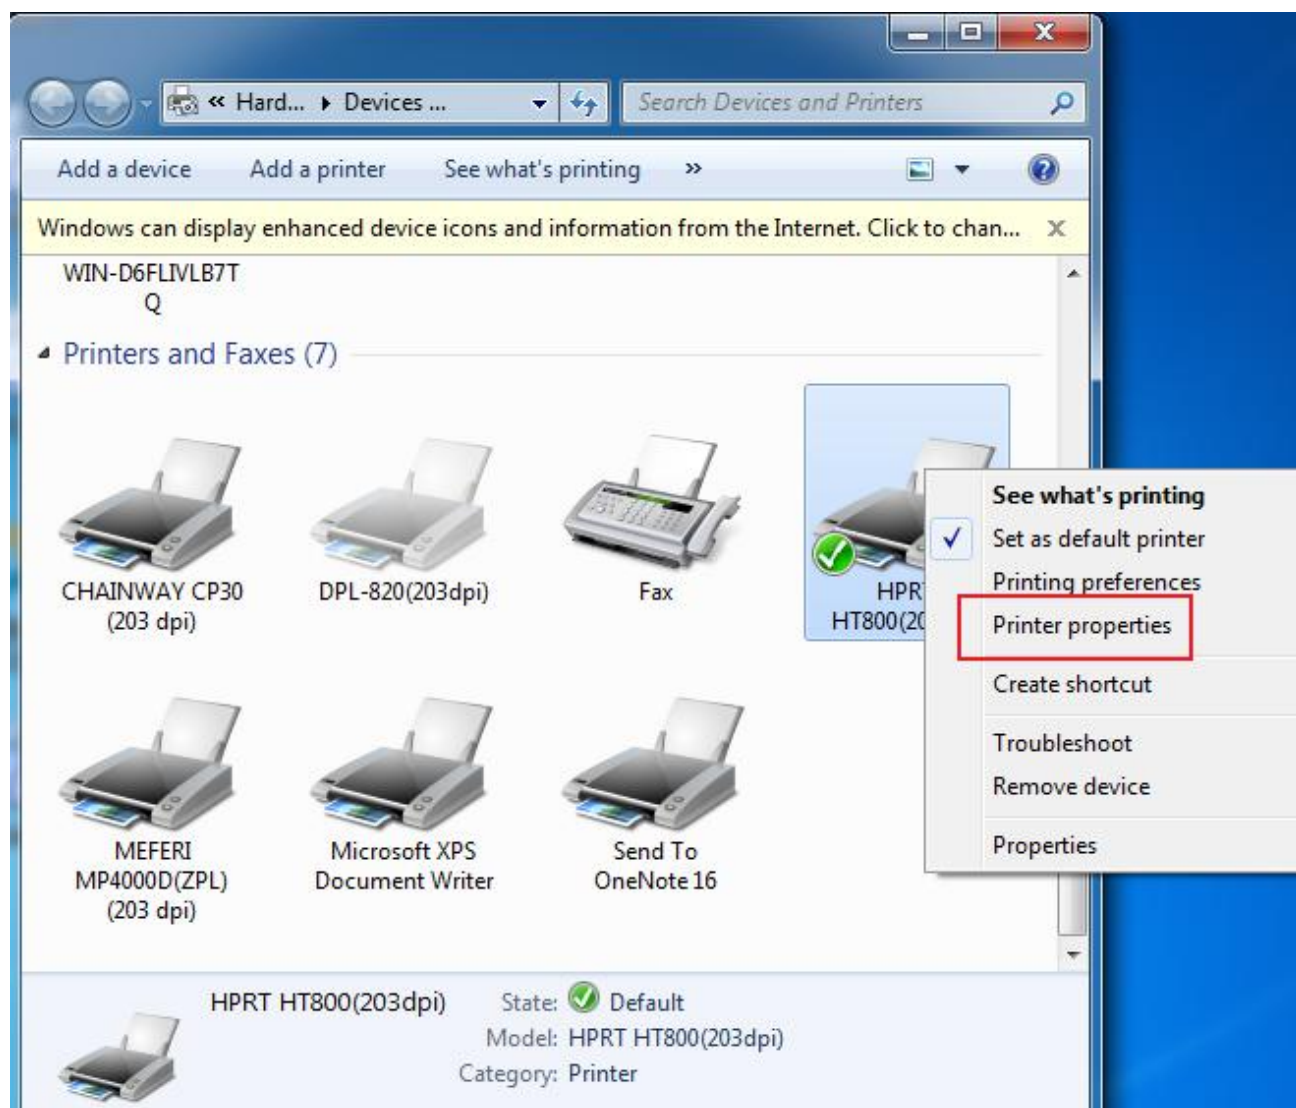

4. Click "Halftone".

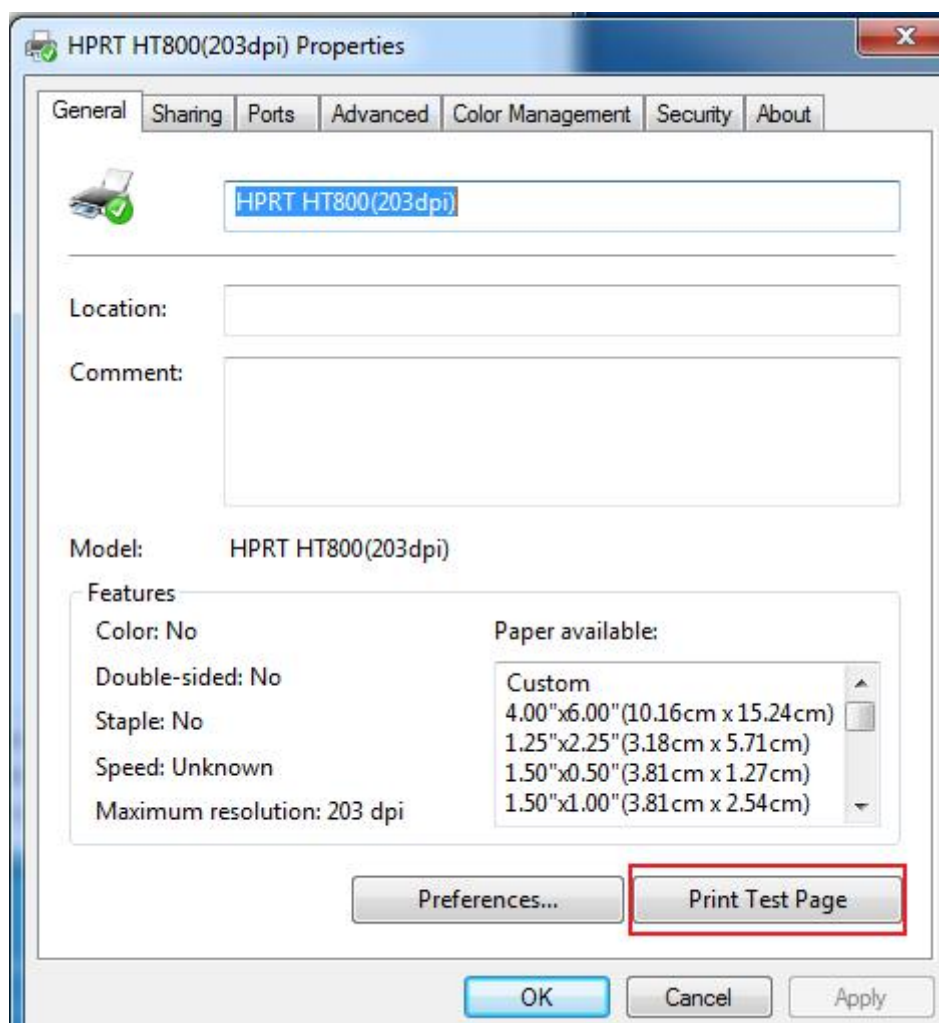

7.4.2 Printer Properties

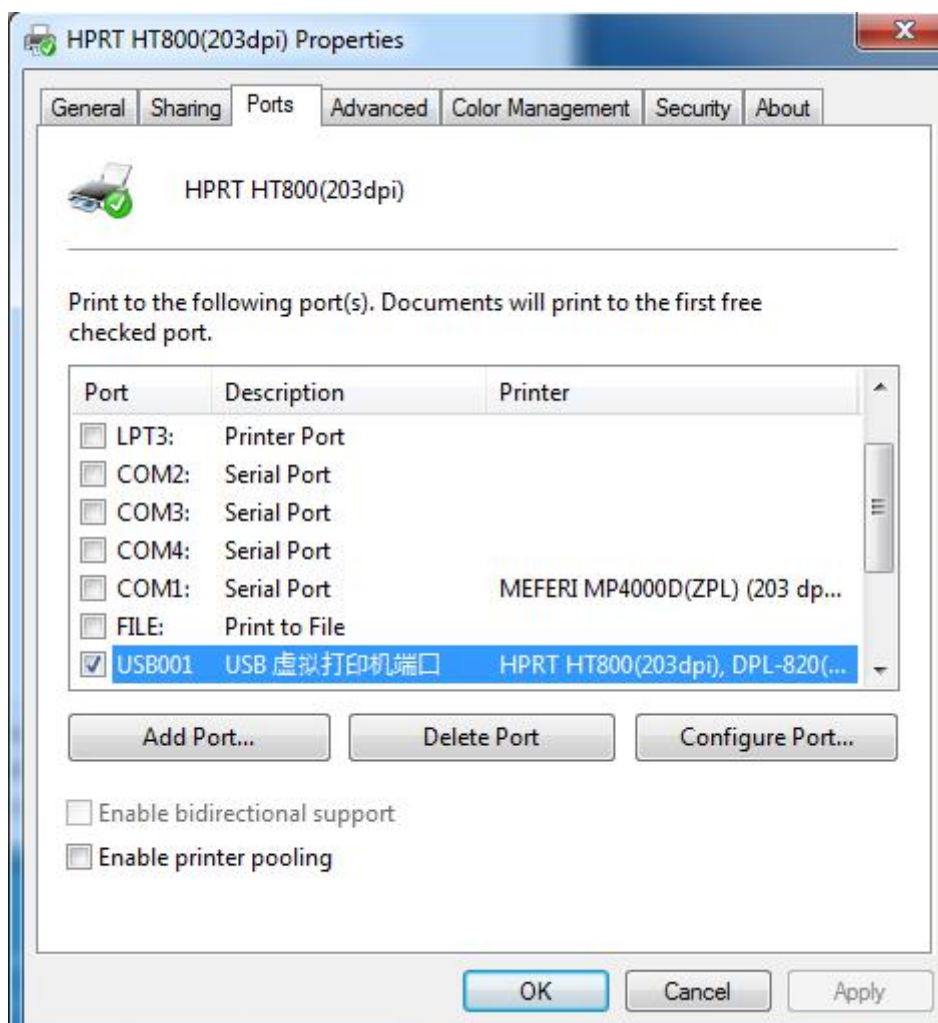

1. Click "Start" → "Devices and Printers". Right click the icon and choose "Printer properties".

2. Click "General" → "Print Test Page", and printer will print labels with current settings.

3. Click "Ports", and choose the port needed.

7.5 Label's Width

USER(4.00 in x 4.00 in)

2x4(2.00 in x 4.00 in)

4x4(4.00 in x 4.00 in)

4x6(4.00 in x 6.00 in)

Chapter 8 BarTender Ultralite Instructions

8.1 Introduction

This chapter provides instructions on BarTender Ultralite program according to PC operating systems(OS).

The followings are supported.

- Windows 10, 8.1, 8, 7 and Vista.
- Windows Server 2016, Server 2012 and 2012 R2, Server 2008 and 2008 R2.
- Includes all 32-bit and 64-bit (x64) editions.

8.2 Installation Preparation

Download BarTender Ultralite application program in CD.

8.3 Installation

Note:

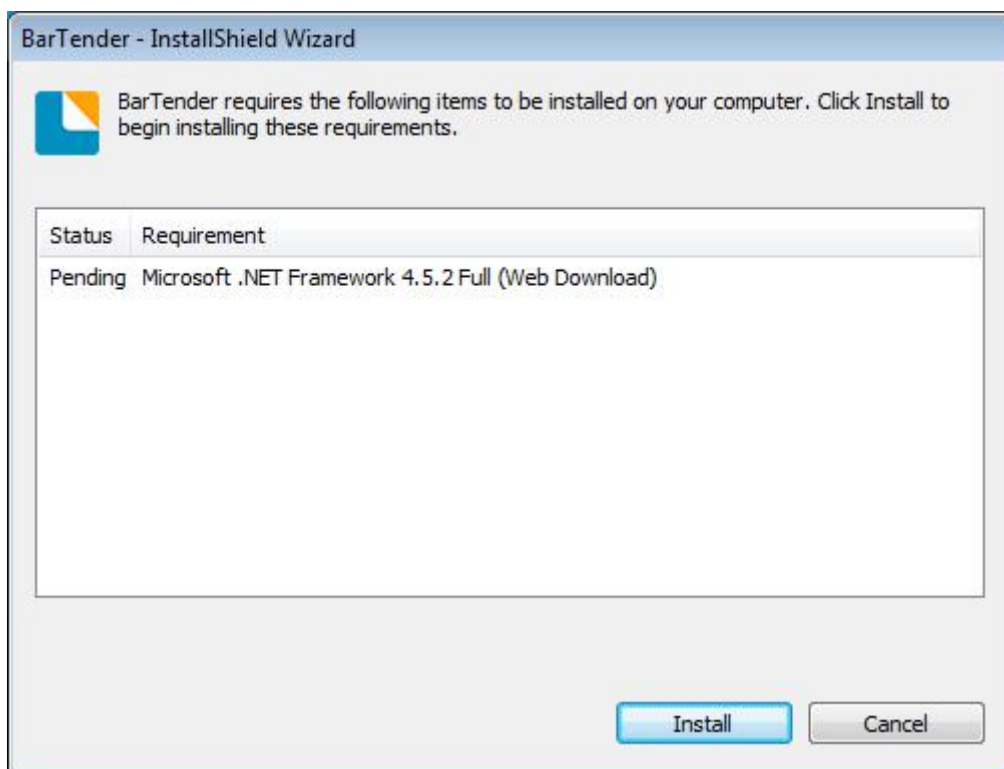

- Under different operating systems, the screen may be slightly different. Take Windows 7 as example.
- Take printer iT4E as example.
- To avoid the prevention, recommend to close the security software before installation.

1. Double click the application program .

2. Select language, then click "OK".

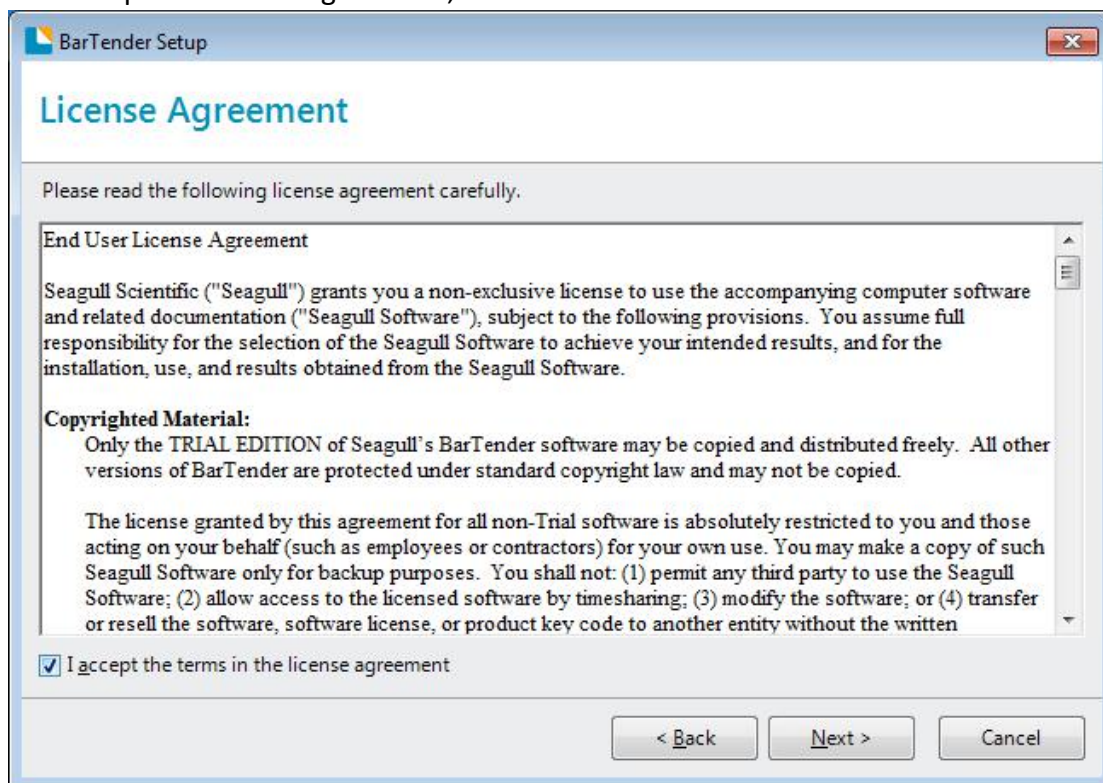

3. Click "Install".

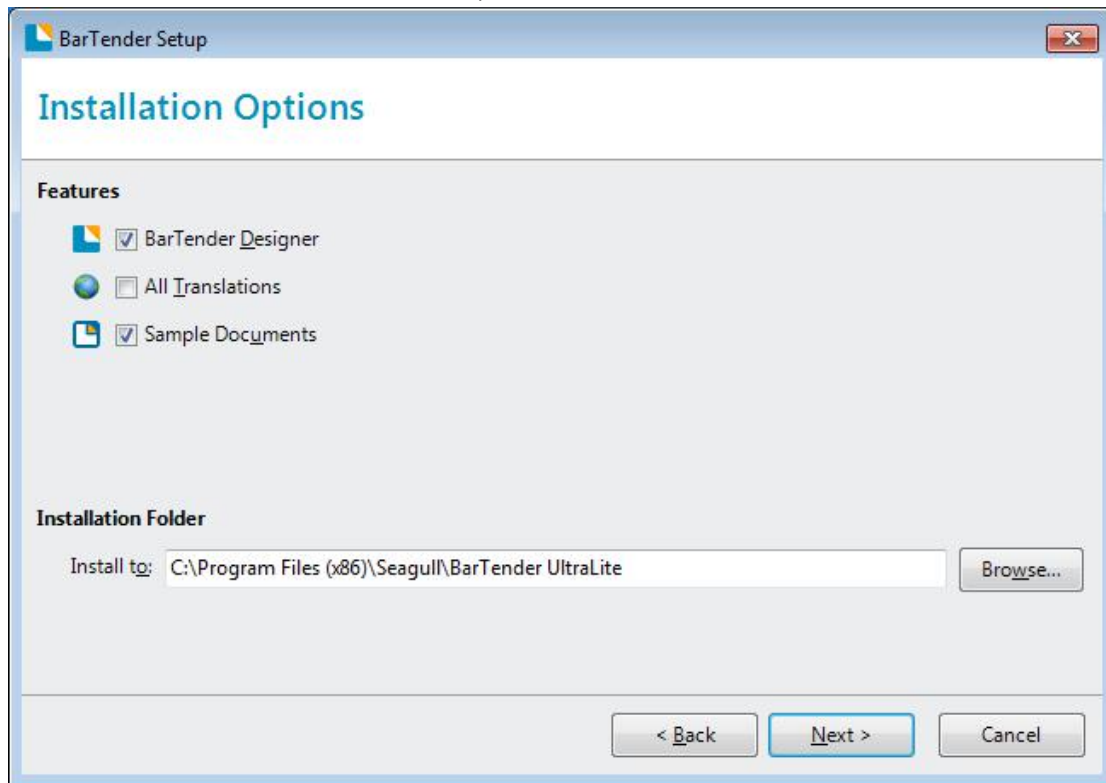

4. Click "Next".

5. Read and accept the license agreement, then click "Next".

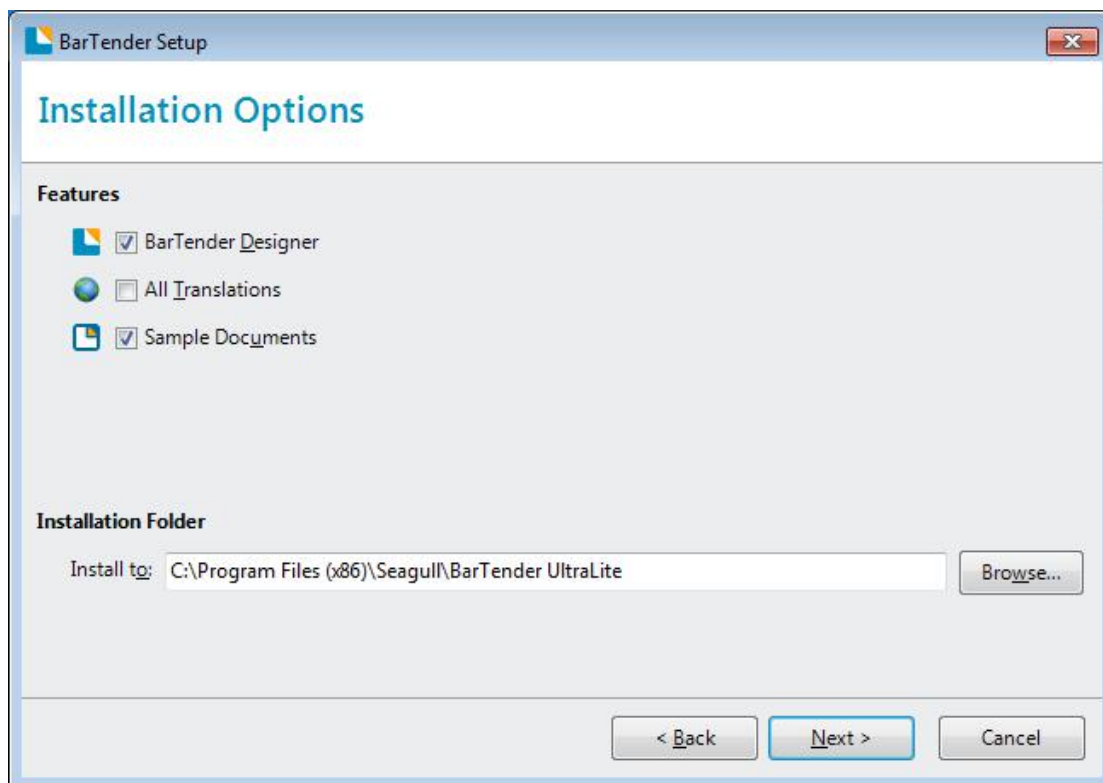

6. Select "Features" and installation location, then click "Next".

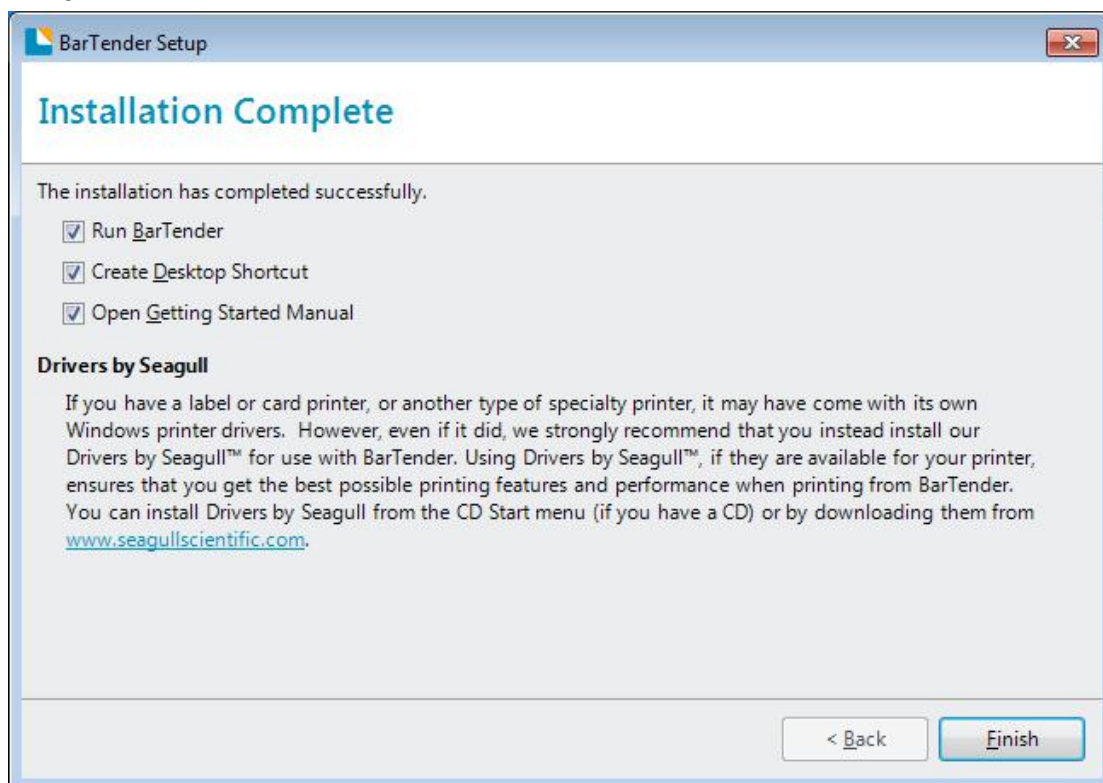

7. Click "Install".

8. Click "Finish".

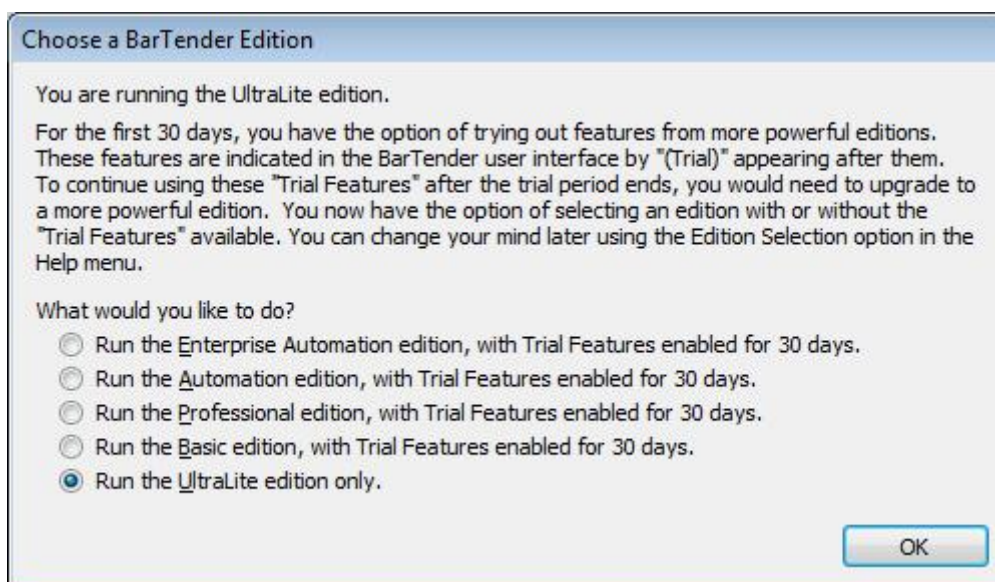

9. Back to desktop, and you will see the icon of BarTender UltraLite. Double click it and get down to use.

8.4 Usage

8.4.1 Page Settings

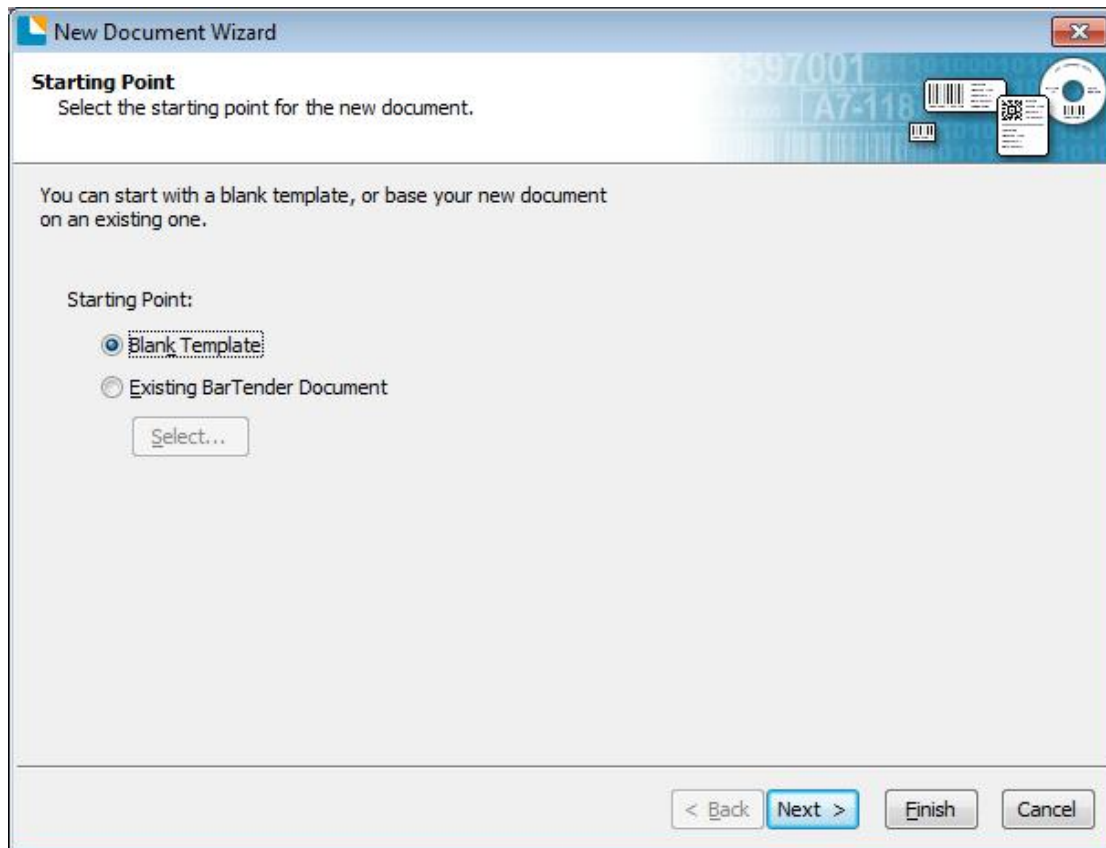

1. Double click the icon, then choose the edition. Click "OK". (The edition may be changed according to different needs.)

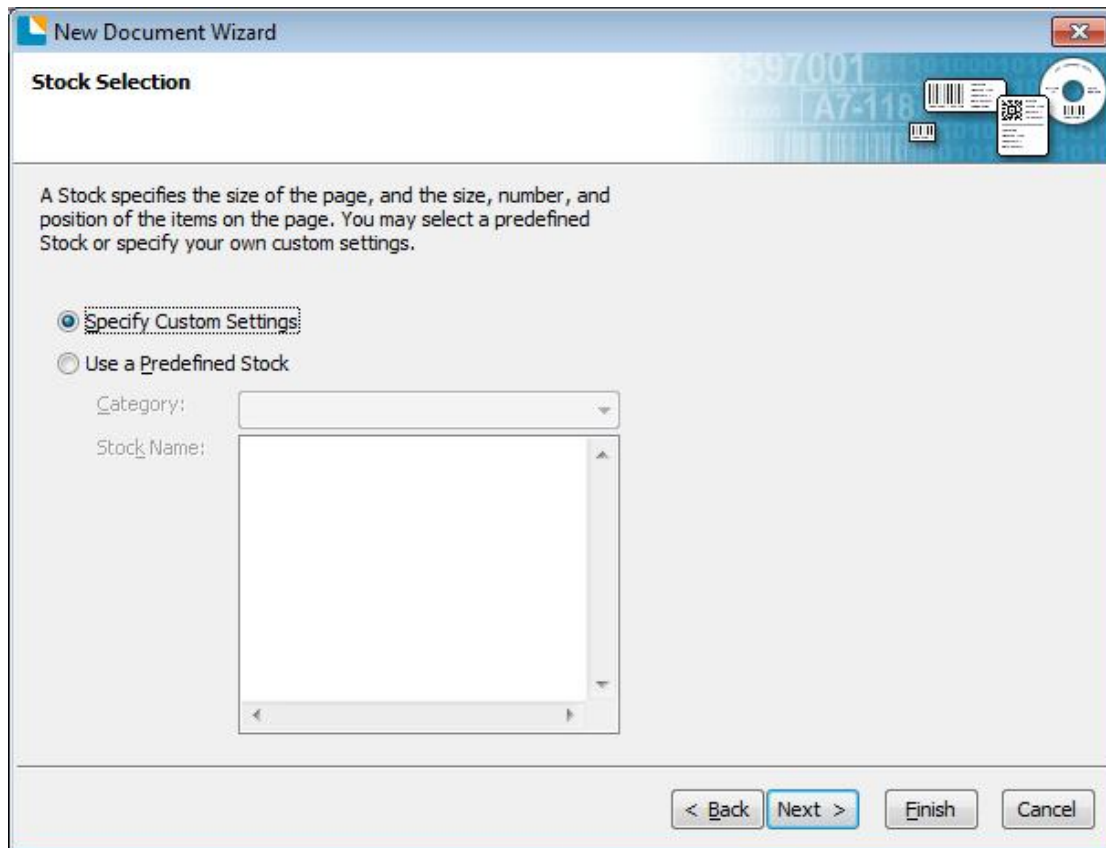

2. Click "Start a new BarTender document".

3. Choose "Blank Template", then click "Next".

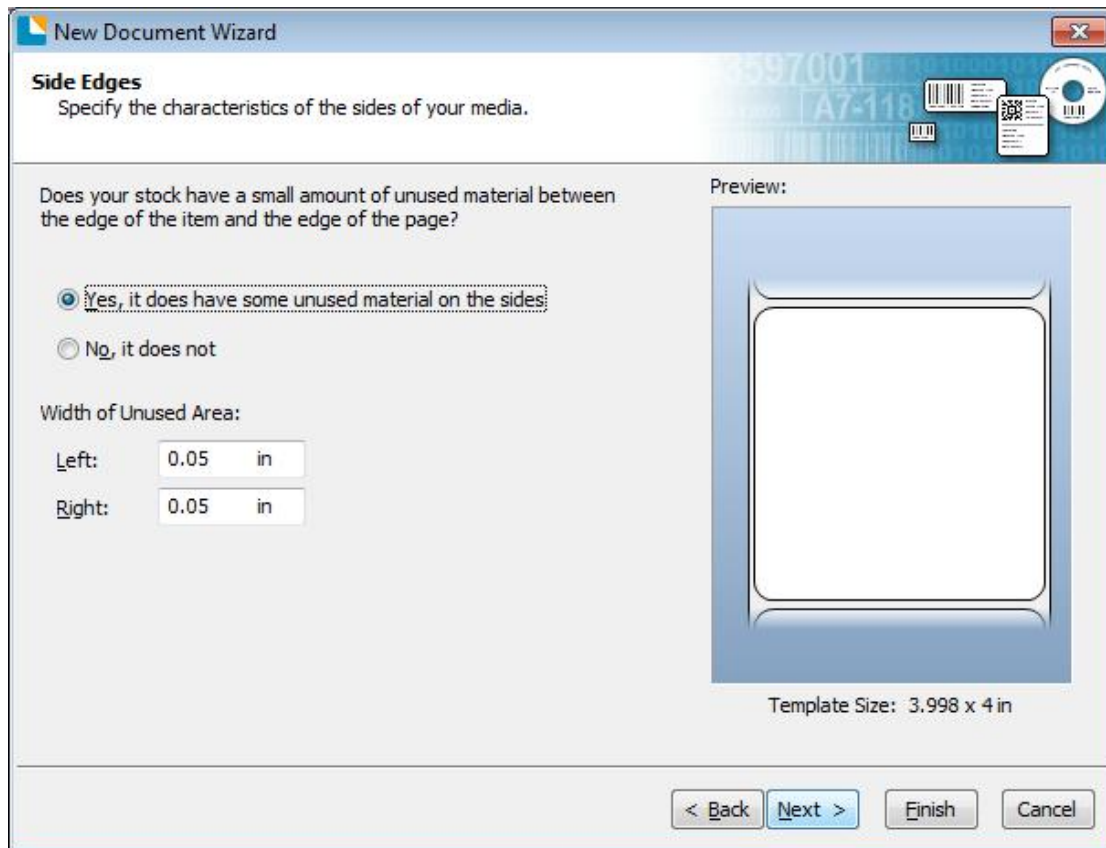

4.If the predefined stocks don't meet your need, tick "Specify Custom Settings". Then click "Next".

5. Tick “Single item per page”, then click “Next”. (If you print multiple labels, tick “Multiple columns and/or rows of items per page”.)

The screenshot shows a Windows-style dialog box titled "New Document Wizard". The current step is "Items Per Page", with the instruction "Specify the characteristics of your media." Below this, a text block explains: "Most media has only a single item (label, card, tag, etc.) per page of stock. Some media, however, are more complex and have multiple items on a page." There are two radio button options: "Single item per page" (which is selected) and "Multiple columns and/or rows of items per page". Under the second option, there are input fields for "Rows:" and "Columns:", both currently set to "1". At the bottom right, there are four buttons: "< Back", "Next >", "Finish", and "Cancel". The "Next >" button is highlighted with a blue border. The background of the dialog features a faint image of various media items like labels, cards, and a CD.

6. Edit the side edges, then click “Next”.

New Document Wizard

Side Edges
Specify the characteristics of the sides of your media.

Does your stock have a small amount of unused material between the edge of the item and the edge of the page?

☒ Yes, it does have some unused material on the sides

☐ No, it does not

Width of Unused Area:

Left: 0.05 in

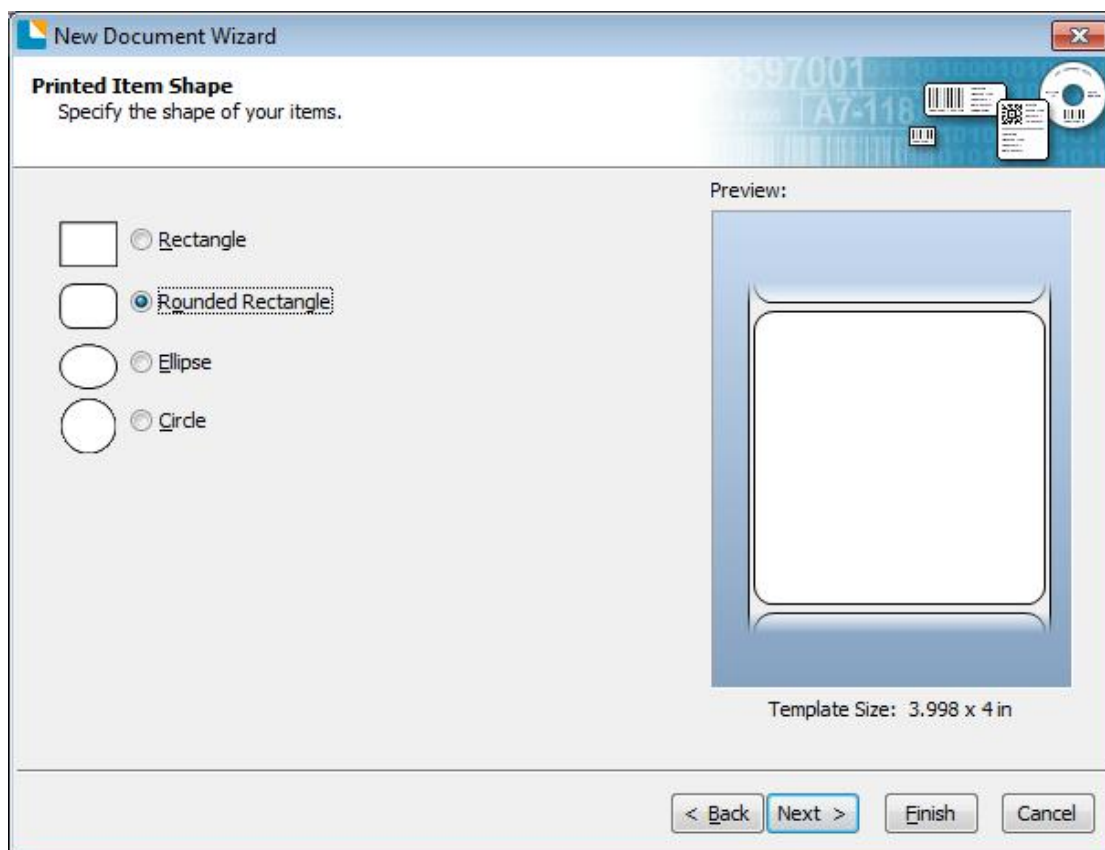

Right: 0.05 in

Preview:

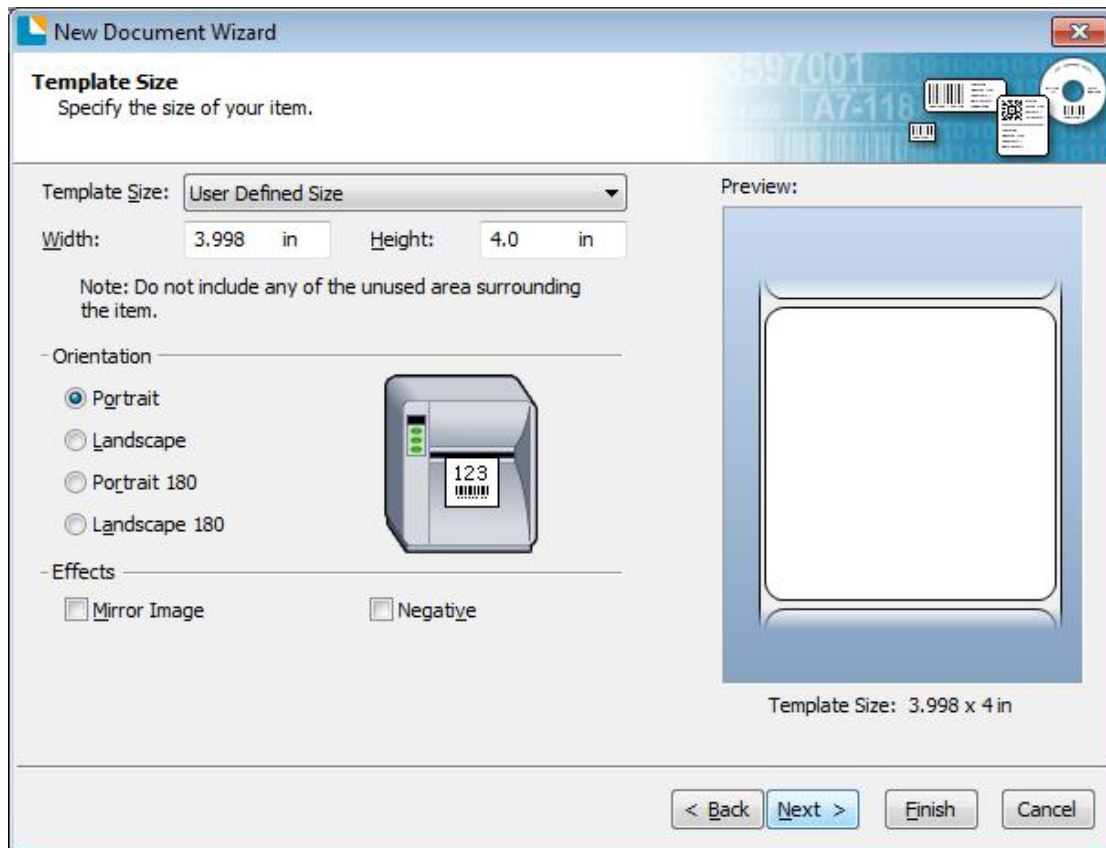

Template Size: 3.998 x 4 in

< Back Next > Finish Cancel

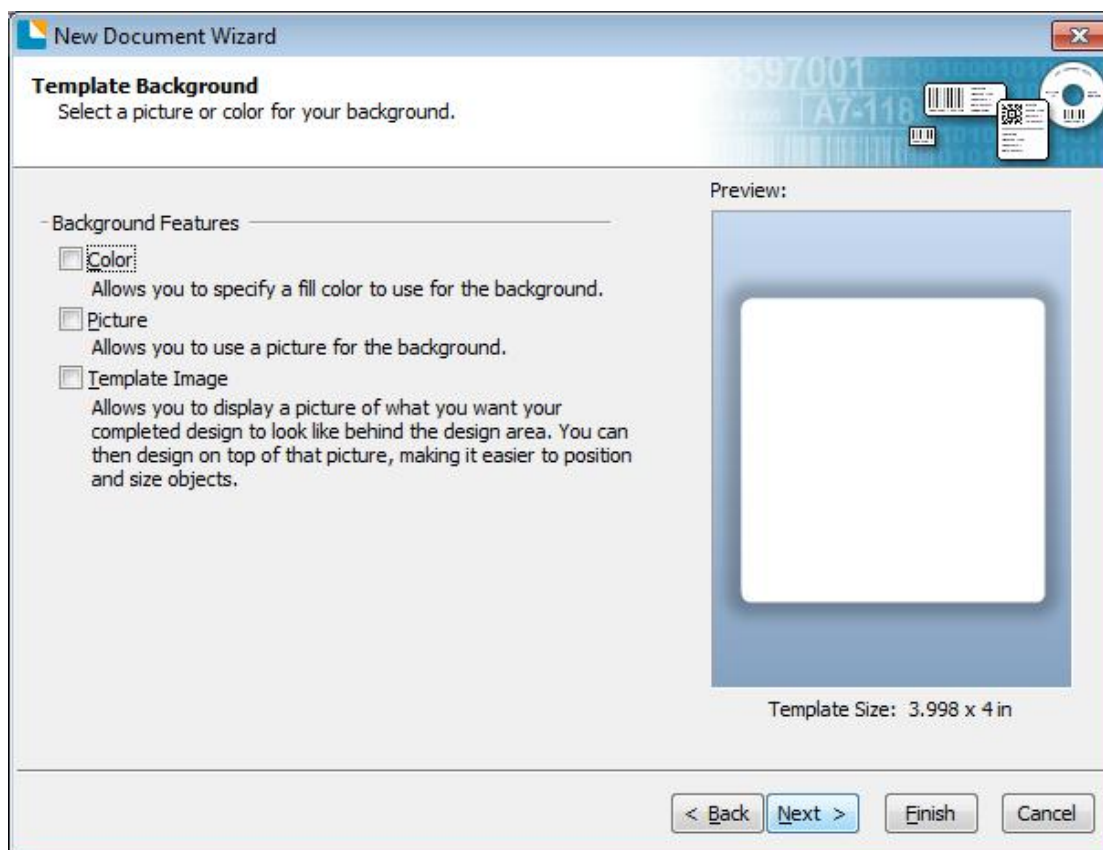

7. Choose the item shape, then click “Next”.

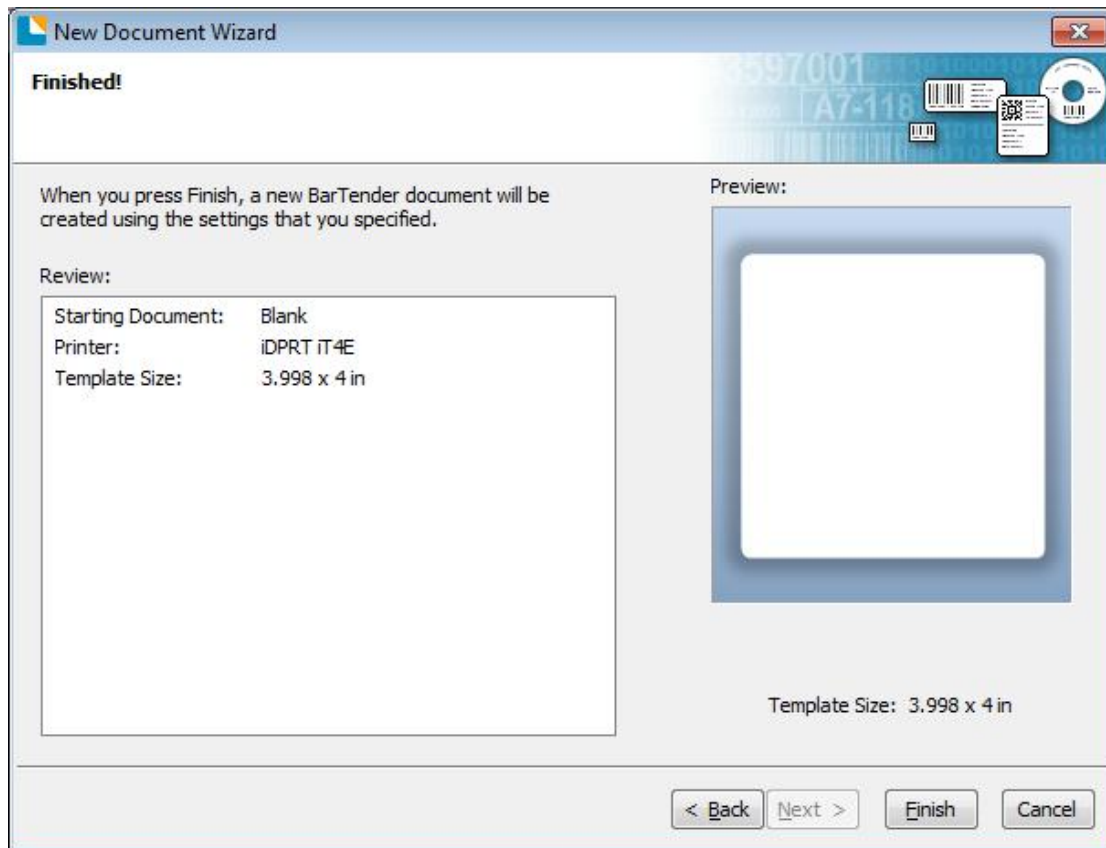

8. Edit the template size, then click “Next”.

9. Based on your need, edit the template background. Then click “Next”.

10. Finish the settings, showed in the “Review” and “Preview”. Then click “Finish”.

8.4.2 label Edit

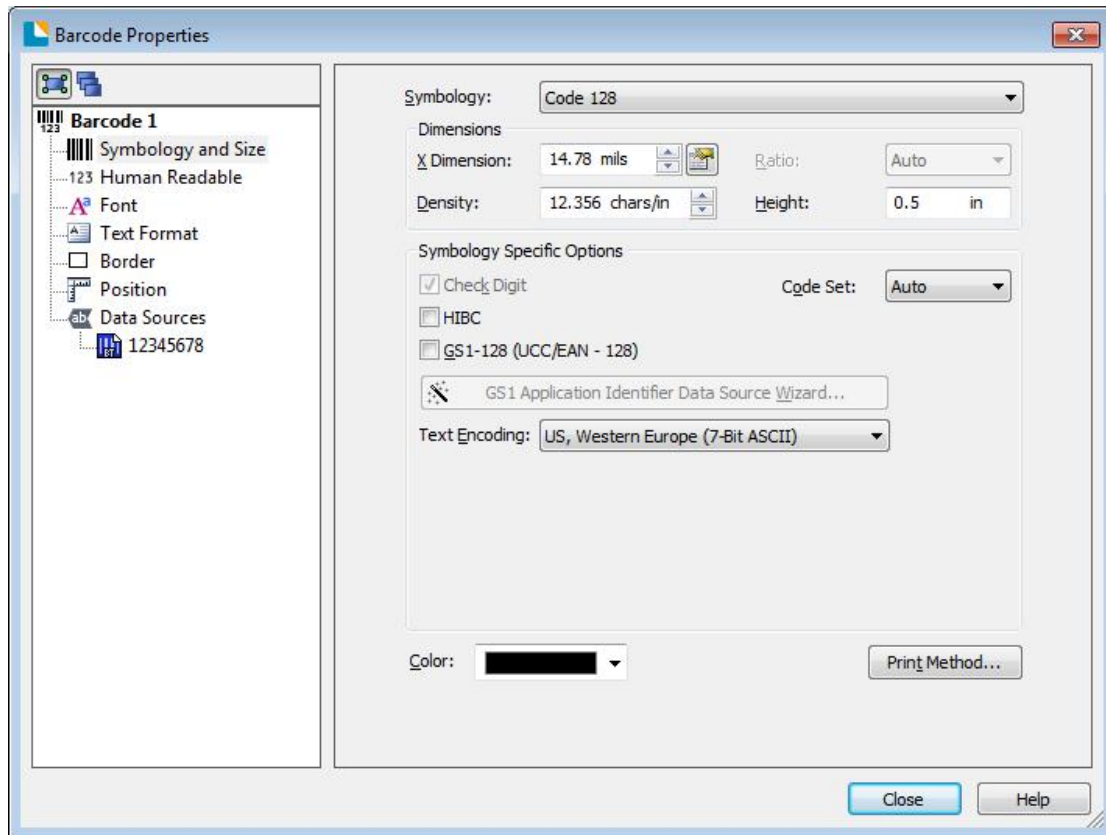

1. Click the icon of code .
2. Choose the code, then click "Select".

3. Click the blank, showing the code.

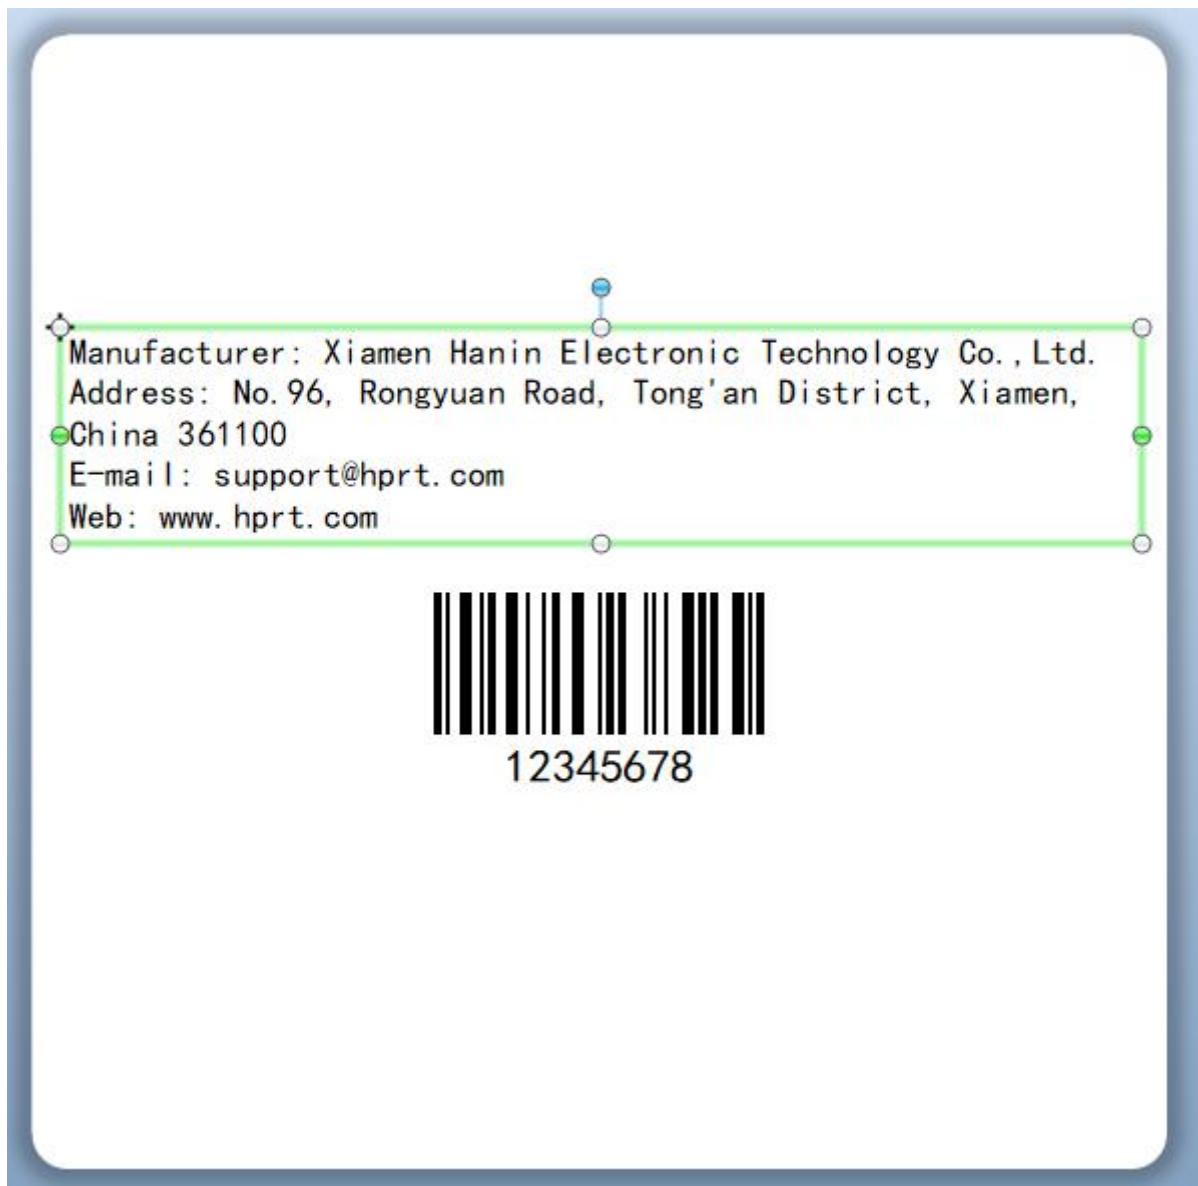

4. Double click the code and edit it. User can set up the size, font, border and so on.

Finishing the change, click “Close”.

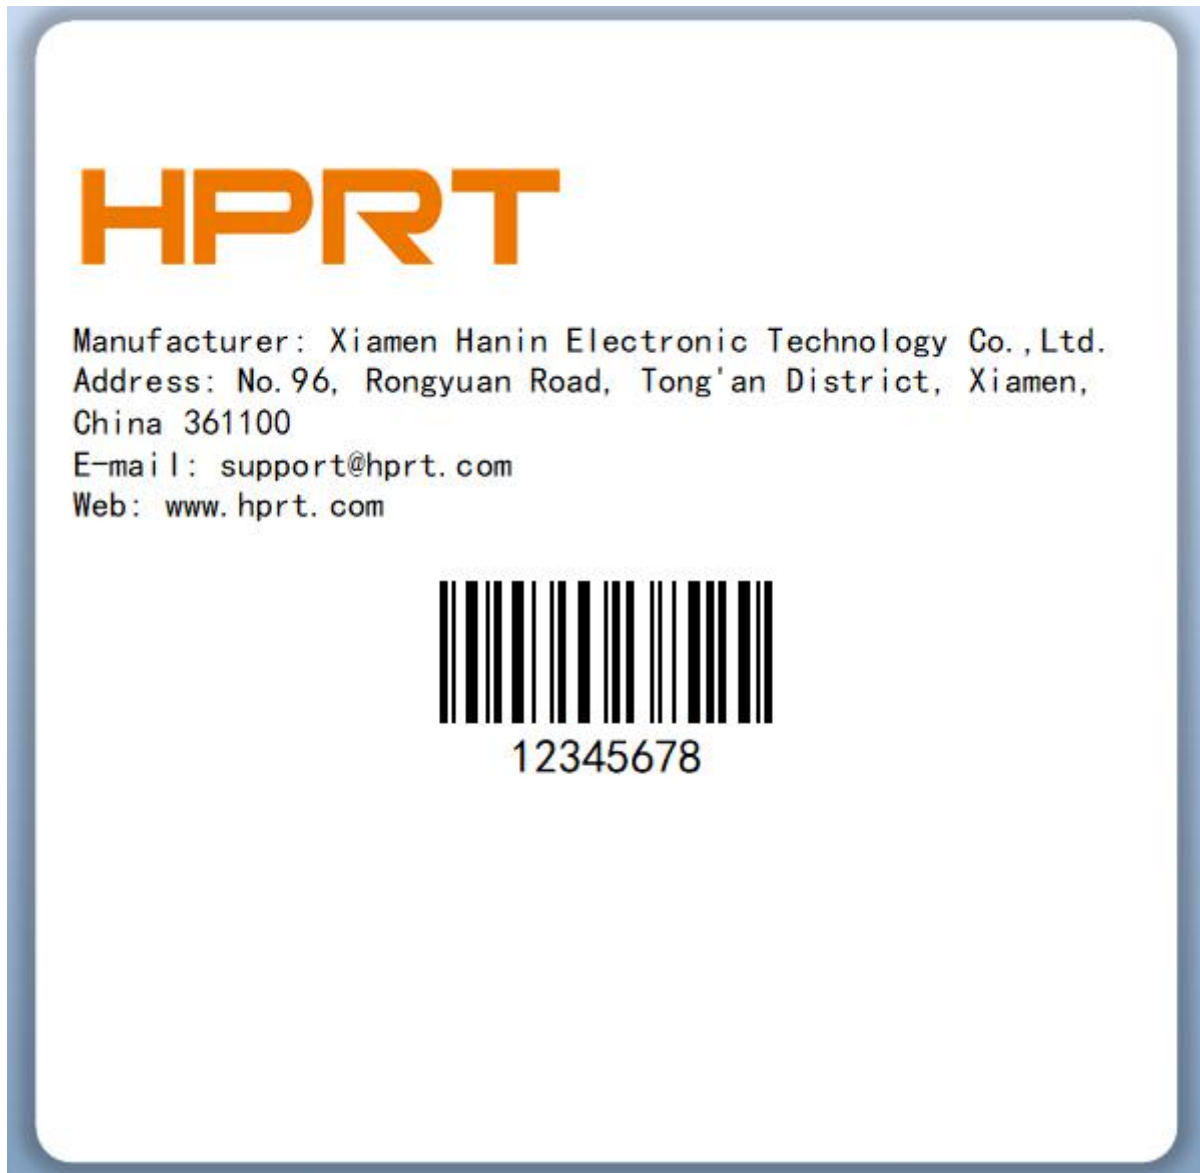

5. Click the icon of character , then enter the text.

6. Click the icon of picture , then edit the pictures.

7.Compose the text.

8.Finish all the settings. Click “Print” and a new label will be printed.

FCC-DECLARATION OF CONFORMITY

Product

We, Xiamen Hanin Electronic Technology Co., Ltd. declare that the product conforms to the following specification: FCC Part 15, Subpart B Class A digital device.

This device complies with Part 15 of the FCC rules. Operation is subject to the following Two Conditions:

- This device may not cause harmful interference;
- This device must accept any interference received, including interference that may cause undesired operation.
- The user is cautioned that any changes or modification not expressly approved in this manual could void the user's authority to operate the equipment. To ensure compliance, this printer must be used with shielded communication cables.
- Use only power supplies listed in this manual and /or recommended and approved in this manual.

EC DECLARATION OF CONFORMITY

Manufacturer certifies that the following designated product

Type of product

Thermal Transfer label/Direct Thermal Label Printer

It is in conformity with the standards

Test standard information

Under the Council Directive: (LVD) Directive 2014/35/EU relating to electrical equipment designed for use within Low Voltage Directive.

EN 60950-1:2006+A11:2009+A1:2010+A12:2011+A2:2013

Under the Council Directive: (EMC) Directive 2014/30/EU relating to Electro Magnetic Compatibility.

EN 55032:2015

EN 55024:2010

EN 61000-3-2:2014

EN 61000-3-3:2013

We declare herewith that as a result of the way in which the device designated below was designed, the type of construction and the devices which, as a result have been brought on to the general market comply with the relevant fundamental regulations of the EC Rules for Safety. And we declare herewith the below mentioned model is conformity with Directive 2014/30/EU and 2014/35/EU. In the event of any alteration which has not been approved by us being made to any device as designated below, this statement shall thereby be made invalid.

The declaration is sole responsibility of the manufacturer

Name of manufacturer

Xiamen Hanin Electronic Technology Co., Ltd.

Please refer to the attachment for details of FCC certification.
